A simple way to use the dashboard

Before you begin, here's one simple thing to keep in mind:

The goal of this dashboard is not control, it's awareness.

If you notice spending patterns that surprise you, that's information, not failure.

Awareness comes first. Change comes later, naturally.

Start by observing. The rest will follow.

Getting Started

1. Begin on the Review Instructions tab to understand the flow.
2. Move to the Input tab and enter your Available Funds.
3. Log transactions as they occur and allow the Dashboard to update automatically.

You may use this dashboard daily, weekly, or monthly, there is no right pace. This tool is here to support clarity and steadiness, not pressure.

Thank you for choosing a more intentional way to engage with your money.

May you stay in financial flow and clarity,

Montrelle L & Edwina F
