Client Testimonials

FUNDERBURG LAW

I went into business with Lerae in 2016. I remember needing to make a shift in regards to my legal representation. My business was so unorganized, monies left on the table, LLC's dissolved (a mess lol). Lerae came right in with passion, a sense of urgency, and intention.

Over the past five years I've seen much growth in my deal structures, and honestly the most money I've ever seen thus far. She's thorough, she fights for you, she's transparent, and business aside, a remarkable, strong Black Woman I consider a true friend. Thank you Lerae for all you do and have done for me. I appreciate you.

SAMMIE
SINGER, SONGWRITER

Connecting, interacting, and receiving counsel from Attorney Lerae has physically and spiritually bought my life's work to greater balance and prosperity, as a result of her due diligence, the care, the legal mastery, the excellence, the execution of the Sacred Woman, Lerae has literally supported me in protecting my entrepreneurial work to the next level. As a holistic healer who has supported my retreats through sound medicine, I would recommend her sound healing for women's retreats, family, heart, healing sessions, one on one group or individuals who are seeking Ma'at in their lives. Balance, truth, righteousness, and justice is what Attorney Lerae brings in everything she does. I offer total gratitude.

ELEVATE LEGALLY

JENNIFER S.
SACRED LIVING ALUMNA

I'm a credentialed woman, wife and full-time mother of three. Over the years, my family has become my singular focus to the extent that I did lose myself. The problem for me was inside. More and more, I was feeling unmotivated, unsatisfied, stuck and altogether not myself. I had been open and inching toward this moment for a couple of years when Lerae circled into my life. I was so ready for it, yet had no idea what it would look like.

In short, Lerae has become my soul helper. With her safe, gentle, knowledgeable and direct guidance to exploring and understanding self, I am beginning the process of recognizing, reconciling, and reclaiming those muted parts of me. I am gaining tools that resonate and therefore have the quality of sticking with me as I walk through my interactions and intentions from day to day. I feel free in our conversations; I feel fully heard, understood and championed all at the same time. Lerae delivers compassion, encouragement, instruction and wit. She celebrates your tiny tweaks and pushes you to extend upon them. I am learning so much, am feeling more agile, more confident, and more compassionate. I am walking into my better self.

Lerae was an amazing fit for me as a Health Coach. The most helpful part of working with her as my coach was being held accountable in a very safe, non-judgmental, and caring way.

I started seeing her with a lot of confusion, fear, and anxiety and felt like I just needed support to help get me out of my head and moving on tackling my thoughts and moving forward with my goals. Through her expert guidance and helping keeping me accountable it has allowed me to reframe those internal thoughts and align myself with my vision. I'm so happy to report that just by working with her one-on-one I've seen great improvements in both my personal and professional life. Thank you for all you do and for your kindness, grace and humor.
