# The 10 Signs

Read each one slowly. Notice how many feel written about you.

1

**You have been going in circles for more than 3 months**

This means you care enough to keep trying. Lazy people quit. You have not quit. That is readiness.

2

**You have too many ideas and cannot pick one**

Your brain is working, not broken. The problem is not ideas, it is a missing decision framework.

3

**You feel like an imposter**

This means you take it seriously. People who do not care do not feel imposter syndrome.

4

**You have bought courses that did not work**

You know what does not work, which is half the battle. You are not starting from zero.

5

**You are scared of picking the wrong niche**

This means you understand decisions matter. The woman not scared is not taking it seriously.

6

**You have been saying soon for months**

The desire is real. If you did not want this you would have stopped saying soon long ago.

7

**You feel "less than" watching everyone else succeed**

You have a reference point for success. That reference point is fuel, not failure.

8

**You freeze when people ask what your business is**

You are protecting something real. That is not cowardice, that is care. That means you don't know how to explain it.

9

**You have tried to research your way to a decision**

Research produces more options. A framework produces a decision. You need the right tool.

10

**You are still here, still trying, still reading this**

The women who were not ready stopped at sign three. You are still here. That is your answer.

## YOU ARE MORE READY THAN YOU THINK

Every single sign above is not a weakness. It is evidence.

Evidence that you want this badly enough to keep going.

You are not stuck because you are broken.

You are stuck because you are missing one thing :  
*A clear simple decision framework that walks you through your first offer decision step by step.*
