WHAT IS PERIOD 9?

Period 9 **2024-2043**

Feng Shui's Period 9, a time resonating with the energy of the Fire element. It's an era of illumination and visibility, especially for women stepping into their power.

This period, which starts in 2024 and lasts until 2043, symbolizes a shift where feminine energy and leadership are at the forefront. Women across the globe are finding new ways to lead, innovate, and inspire.

Period 9, with its Fire element, is anticipated to bring a focus on technological advancements, global visibility, and rapid social changes. This include increased emphasis on digital technology, social media, and global communication. It is seen as an opportune time for personal transformation and professional advancement. People might focus on personal branding, public speaking, and other skills that enhance visibility and influence. This period might also emphasize the role of technology in our lives, particularly technologies that enhance communication, visibility, and global connectivity.

Remember, Feng Shui is about aligning with the heaven, earth, and human energies together, reflecting our intentions and desires. By aligning ourselves with the energies of Period 9, we can create spaces that empower and inspire us.

CHECK LIST

Things you will need:

Your Birth Date

Computer/Cell Phone

Compass

Floor Plan

Open Mind

1. MAIN DOOR

Your main door is the Qi mouth to your house. It is the entrance and exit you use most often. It connects the outside world to your space. For some, it could be your front door and some could be your back door or side door. This area is important because 70% of the Qi from the outside will be coming through this door.

You must declutter this area both 5 feet inside and 5 feet outside of this entrance. Also make sure there is not pillar, column, tree, or lamp post blocking your main door. You want unobstructed flow of energy into your house. Remember Qi is your wealth energy!

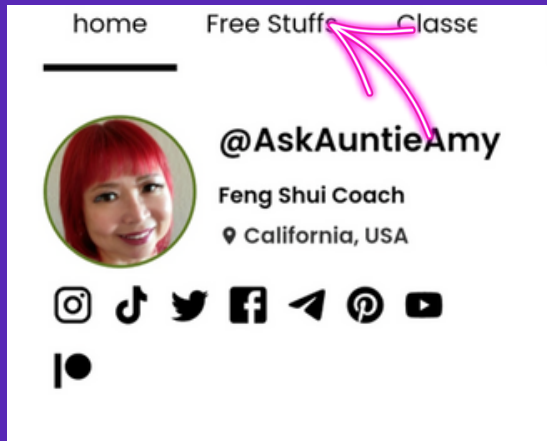

2. FIND YOUR WEALTH ✨ DIRECTION

Everyone is born with four "lucky" and four "unlucky" directions. Don't be frightened by the word "unlucky" because we can use all the directions. You just need to know what are the appropriate activities to do in each sector, that's all!

These directions will not change over time because they are based on your natal birth chart. You can apply and use these directions anywhere in the world and in any house you live.

Your personal wealth direction is your most auspicious direction. It is yours for your lifetime so memorize what is that direction.

FIND THE CENTER

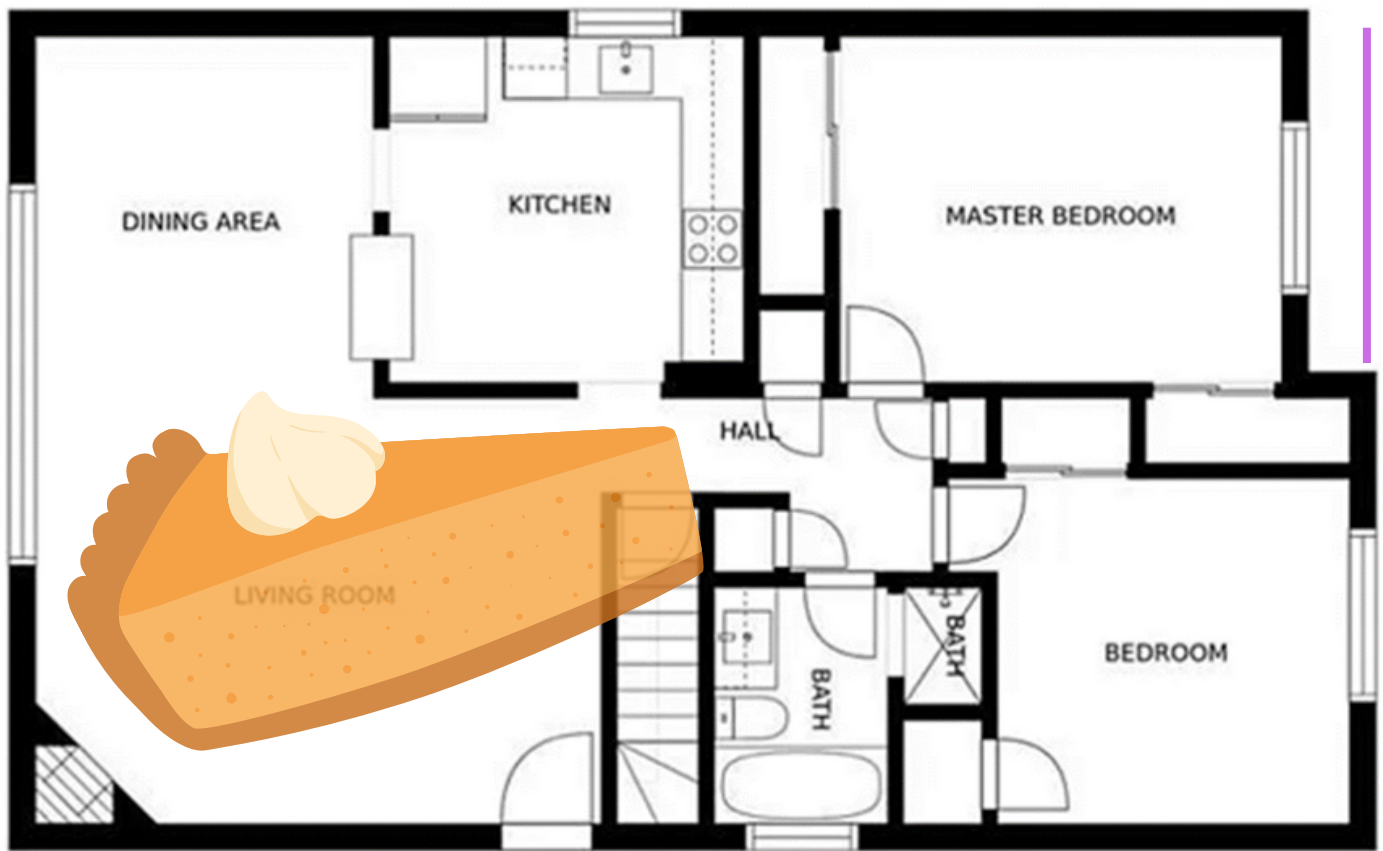

Find the center of your house by drawing a line from corner to corner and where they intersect is the center. Make sure you include all the walls of your house. If it has a missing corner like in this example, just extend the line out a little to square it off. Stand in the center and take a compass reading. Download the compass template

Now match up the compass degree to your house and overlay the Feng Shui compass template over your floorplan. The easiest method is, to scan your floorplan into a PowerPoint app and overlay the template. However, you can also print the template on to a transparency and overlay it on your floorplan.

HOW TO USE YOUR WEALTH DIRECTION

Now you have found your **Wealth** direction, use the compass template locate that area in your house. Declutter, clean, and organize that area. What if it is in an area like the bathroom, storage room, or staircase? Remember the compass sector is like a piece of pie, you can use the area where the slice of pie is at from the tip to the edge. What to do next?

Ideally, if you can put your desk in that sector facing your wealth direction and work there. That is the best first choice option.

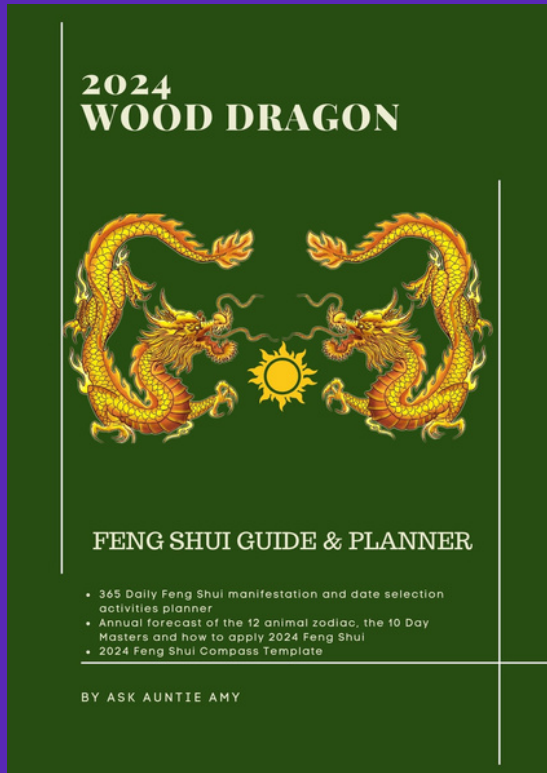

What if it is in an area that you can't put your desk there, then bring your laptop and work there.

What if it is the bathroom, storage room, etc. No desk, no laptop, no problem! Just must sure that area stays clean and organized.

LAST WORDS

Remember your soul journey on this earth is temporary. All the material goods you accumulated will be left behind on this earth when your physical body leaves. Use the time while you are here wisely and make the best of it.

Think about what you want to accomplish and how that will impact your family, your friends, your communities, and the earth. Choose your steps and make your decisions with the end goal in mind.

Sometimes we need help in our journey, this is where Chinese metaphysics can help and guide you to make better decisions. That is the exact reason why I became a Feng Shui coach.
