Three Sacred Energies

What are the “Three Sacred Energies?”

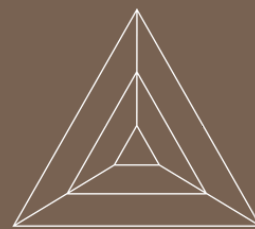

Energies existing across time and now revealed as the keys to profound healing and soul evolution.

Each one carries its own frequency, its own color, and its own purpose—yet together, they weave a tapestry of transformation unlike anything humanity has experienced before.

Let us step into their mystery and discover the Divine Energy, the Christ Light, the Atlantean Frequencies, the trio that awakens, heals, and uplifts the soul."

THE DIVINE, CHRIST LIGHT, AND ATLANTEAN

www.three-sacred-energies.com

Three Sacred Energies

THE DIVINE

This is the energy of the Creator of All That Is , known by many names ie. Source, God, Oneness. The energy is pure white light and love, it is what our souls are created from and it is the power of love that heals, like no other. It is the life force of everthing in existence.

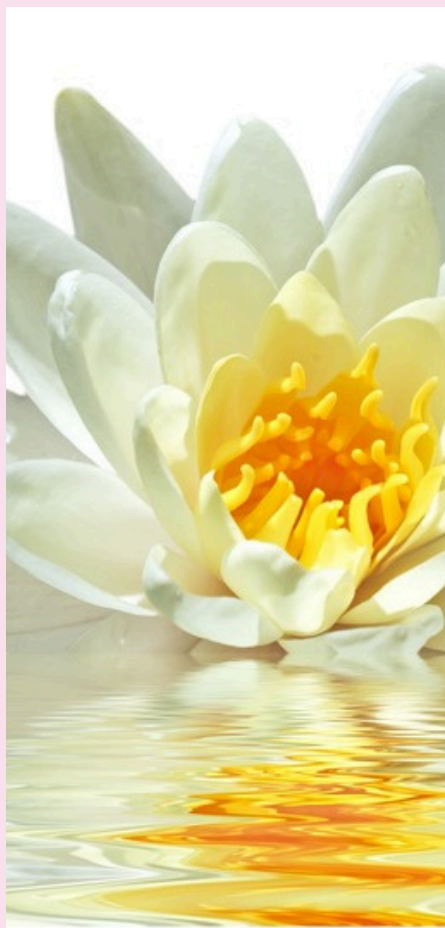

CHRIST LIGHT

Is the highest form of Spiritual energy available to humanity at this time. It is the frequency that Christ (Jesus) brought to earth, to heal and profoundly transform the suffering of humanity. The frequency is pure love and is the foundation of all the healings and when combined with the Atlantean and The Divine energies, remarkable healings can occur. The colour is gold.

ATLANTEAN

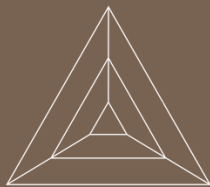

Is the Yin/Feminine Energy, which compliments and balances the Yang/Masculine Energy of the Christ Light. At the times of Atlantis this energy was used to power communication and healing through quartz crystals. It is characterised by high frequency Yin/Crystalline vibrations to harmonise, regenerate and uplift consciousness. The colour is a soft pink.

Why Three Sacred Energies?

The Three Sacred Energies work at the deepest level of the soul, gently dissolving pain, trauma, and unresolved emotions so you can experience inner peace. The combination of The Divine, Christ Light, and Atlantean energies is found only here, making this program a rare opportunity for profound healing.

- End soul suffering and emotional burdens.

Chakra

Chakra

Chakras are energy centers within the body that influence our physical, emotional, and spiritual well-being. There are seven main chakras, each aligned along the spine from the base to the crown of the head.

When balanced, these chakras allow energy to flow freely, supporting harmony across body, mind, and soul. Blockages or imbalances can manifest as stress, illness, or emotional challenges, while alignment fosters clarity, vitality, and spiritual growth.

Chakra

Crown Chakra (Sahasrara): Spirituality, enlightenment, divine connection.

Third Eye Chakra (Ajna): Intuition, awareness, insight.

Throat Chakra (Vishuddha):
Communication, truth, expression.

Heart Chakra (Anahata): Love, compassion, healing.

Solar Plexus Chakra (Manipura): Power, confidence, vitality.

Sacral Chakra (Svadhishana): Creativity, sexuality, abundance.

Root Chakra (Muladhara): Grounding, survival, stability.

Birthstones

Birthstones are a collection of precious and semi-precious gemstones, each associated with a specific month of the Gregorian calendar. They are widely believed to bring good luck, health, and protection to the wearer.

Chakra Alignment with each Birthstone

It is always fun to find out a little more about yourself and how you are connected to so many different elements. You truly are an amazing creation of energy, love, inspiration, motivation and a passion for life and living.

Your unique energy is your essence, and this is the energy you emit out to the world and the universe. Your chakras are your main energy centres or vortexes that circulate, emit, and attract so much throughout your entire life.

Your birthstone correlates directly with your essence, and your energy will respond to the energy of the stone/crystal. Below you will find your birth month with your birthstone/crystal plus its meaning and which chakra it is connected to. Some birth months have two or three stones or crystals. The combination presents strength in their abilities.

Birthstones are believed to have ancient and sometimes biblical origins.
