Digital Marketing Mentor

Why I Built the Legacy Builder Program

I'm Don Rodwell — and I built this for people who want more security and less stress in retirement.

There Is a Better Way to Add Income in Retirement

**I didn't build this to create another job.
I built it to offer a simple, realistic way for
everyday people to add income online — without
tech overwhelm, cold calling, or starting over.**

What Is the Legacy Builder Program?

The Legacy Builder Program is a step-by-step online system designed to help retirees and those nearing retirement add dependable income — without tech confusion, sales pressure, or starting over.

How the Legacy Builder Program Works

**This is a guided, step-by-step system.
You're shown exactly what to do, in the right
order, with support available along the way.
You don't need prior experience.
You don't need to be "good with
computers."
And you don't need to figure everything out
on your own.**

Why This Works for Regular People

This program was built for real people — not tech experts, not influencers, and not people looking to work around the clock.

It works because everything is already laid out for you.

You follow a proven system instead of guessing.

You use simple tools instead of complicated software.

You get guidance instead of being left on your own.

There's no cold calling.

No chasing friends or family.

No pressure to “sell” anyone.

You move at your own pace, with support available when you need it.

That's why regular people — especially those nearing or already in retirement — are able to make this work with confidence.

Your Next Step (When You're Ready)

**If you've read this guide and feel ready
to explore further...**

**This program isn't for everyone.
But if you're looking for a simple, realistic way to
add income –
without pressure, confusion, or starting over –
this may be worth a closer look.**

**If you'd like to see what the Legacy Builder
Program looks like,
how it works, and whether it's a fit for you –
you can learn more on the next page.**
