

# O U R *Manifesto*

*Family Meeting Spot • A Framework for Families Who Mean Business*

---

We are parents who have lived in the entrepreneurial world for decades and chose to bring those principles home. We are not therapists, psychologists, or traditional coaches.

The same tools that helped us build businesses—clarity, accountability, structure, and repeatable systems—have brought more calm, connection, and resilience into our own family life.

We remain on this journey every day in our own marriage, with our 2 young adults and 1 pre-teen child. This work is not theory; it is lived practice—our passion project, born of gratitude for the tools that changed our home.

## WHAT WE BELIEVE

---

- ◆ Families deserve systems that work. Chaos at home is not a moral failing; it is a lack of tools.
- ◆ Entrepreneurial wisdom belongs in family life.
- ◆ Progress matters more than perfection. We believe in steady, doable change, not quick fixes or guilt-driven parenting.
- ◆ Shared leadership at home makes families stronger. Parents and kids thrive when roles, routines, and responsibilities are clear.
- ◆ All are welcome. Every family deserves clarity and connection.

## WHAT WE DO

---

We exist to equip families with practical tools, simple routines, and shared language that transform daily chaos into daily connection.

- ◆ Practical tools for communication and accountability.
- ◆ Simple routines that reduce stress and decision fatigue.
- ◆ An accessible app that every family member can use under one account.
- ◆ A weekly family meeting structure that brings order, reduces conflict, and builds connection.

## WHY THIS MATTERS TO US

---

We know what it feels like when mornings are frantic, evenings dissolve into arguments, and parents feel like they are losing influence. We also know the relief of small shifts that bring calm and confidence back into the home.

This is not just a business for us. It is a commitment. Our core purpose is to quell the chaos and help families thrive with systems that work — not as outside experts, but as fellow parents walking the same road.

## OUR COMMITMENTS

---

- ✓ We will share only tools we actually use in our own home.
- ✓ We will keep our approach grounded, practical, and compassionate.
- ✓ We will lead with vulnerability, not polish.
- ✓ We will honor the reality that every family is unique, yet every family benefits from clarity and connection.

### OUR CORE DECLARATION

*We exist to bring order, clarity, and connection to families by adapting proven entrepreneurial tools for the home — so parents and kids can spend less energy managing chaos and more energy enjoying each other. This is our passion project, born of gratitude, and open to all families because every home deserves to thrive.*

*Every home deserves to thrive. • [familymeetingspot.com](http://familymeetingspot.com)*
