3 STEP ROADMAP

to get you finally planning your epic trip of a lifetime right now
so you no longer have to worry about where to even start

01

Step 1: Brain dump your bucket list

Grab a pen and a piece of paper or open a new doc/note and brain dump all of those places that have been on your bucket list forever. Write it all down. Don't worry about how 'out there' some of your destinations may feel right now. This step is for dreaming big and getting it all out of your head and somewhere tangible that you can look at. No one is judging you here. And hey, if you already know exactly where you want to go, awesome! Brain dump all your bucket list places at your dream destination instead.

02

Step 2: Start with your why not your where

Now you've brain dumped your bucket list, put it aside for a second. Picking your destination isn't important just yet. What you want to do now is write down why you want to travel. Is it for fun? To see somewhere new? Try new things? Relax? Get out of your comfort zone? Have a break from your day to day? Learn about a new culture? To find yourself? Knowing why you want to travel will not only help you figure out where you want to go but will keep you on track when the planning feels too much.

03

Step 3: What are your 'musts'

Your last step before picking your destination and starting to plan your epic trip of a lifetime is knowing your 'musts'. Your budget and your time frame are going to guide your 'musts' because they'll need to fit in with how much time and money you can spend, but it's important to know what other 'musts' you have so you can plan accordingly. Is one of your 'musts' a luxury hotel or do you prefer to stay in a hostel? Do you want to see all the tourist places or immerse yourself with the locals? Write down all your 'musts' as you'll need them when you start booking things.

LET'S BRING IT ALL TOGETHER!

Now you've got your bucket list, your why and your musts, we're going to work backwards so you can actually start planning your epic trip of a lifetime! Use your why and your 'musts' to look at each destination and pick the one that will most closely match both (don't worry about being super specific here. Chances are you've been daydreaming about this trip for so long you'll have a general idea of where each destination lines up with your why and your 'musts').

Repeat the 3 step roadmap for the dream destination you've just picked and include your 'must sees' in step 3 this time through as well. Now use this set of where, why and 'musts' to fill out the template below and you've got yourself the beginnings of your travel plan! You've taken the very first step to getting your trip from bucket list to booked! Congrats!
