

3 Day Strength & Shape Guide

This program is designed for those who can commit to three training days per week and want a balanced approach to building strength, improving posture, and shaping their physique.

With three sessions each week, you'll be able to train both the upper and lower body more consistently while continuing to develop core stability, mobility, and overall strength.

For best results, space your workouts throughout the week (for example: Monday, Wednesday, and Friday) to allow adequate recovery between sessions.

Focus on controlled movement, proper form, and strong core engagement during every exercise.

Thank You

Thank you for downloading this workout and investing a little time into yourself!

Training doesn't have to be extreme to be effective. When you focus on proper form, strong core engagement, and consistent effort, your body will respond in incredible ways.

This workout is just a small sample of what training together with me can look like.

If you'd like help building a program tailored to your goals, schedule, and body, I'd love to work with you.

3 Day Strength & Shape Guide

COACH T's TRAINING TIPS

- Focus on slow, controlled movement
- Brace your core before every lift
- Choose weights that challenge you while maintaining good form
- Rest 60-90 seconds between sets
- Remember to breathe & smile

Consistency & proper form will always produce better long-term results than rushing through a workout.

SUGGESTED RECOVERY

Finish with a gentle stretch or a yoga flow to improve mobility and recovery.

PIC Brooksville Yoga Classes: Tuesdays @ 530p | Wednesdays @ 8a | Thursdays @ 6p

➡ YOUR NEXT STEP ⬅

If you enjoyed this workout and want to take your training further, there are a few ways we can work together.

Many people start with a free guide like this, then realize they want:

- more structure
- accountability
- a program designed specifically for their body and goals

That's exactly what personal training provides.

When we work together, we focus on:

- building strong glutes and a stable core
- improving posture and movement quality
- creating a body that feels strong, balanced, and confident

Every program is customized to your fitness level, schedule, and goals.

If you're curious about training together, the easiest way to start is simply reaching out.
