TIPS TO MAKE THE MOST OF YOUR TIME

When planning your session, you will want to review some of your posing prompts or have a note in your phone or on your watch.

To ensure that you're optimizing your time with your clients, you will want to photograph in the horizontal and vertical direction. You can also ask them to do the prompt a couple of times so that you can switch your lens or if using a zoom, change your focal length to add even more variety.

The posing prompts I am laying out today are the ones I always begin with at a session because they are the least awkward for the client.

The movements are natural and therefore give the clients some time to warm up to me.
