Generate more leads and revenue with custom landing pages in minutes

Build landing page for : Webinar, ebook, lead generation, b2b, ECommerce, Sales page and more...

- An intuitive drag-and-drop builder and a library of templates to take your lead generation efforts to a whole new level—all within Freshmarketer
- Convert traffic into leads : Successful marketing campaigns rely on high-converting landing pages. Landing pages are the best way to attract visitors and convert them into leads. But they can take several hours to build— if you rely on designers to design them and developers to build and deploy them.
- With Landing Pages in Freshmarketer, easily create your landing pages with the drag-and-drop builder or pre-designed templates and publish your pages in no time. Build responsive landing pages and give your visitors an engaging experience on any device. Your teams can now benefit from launching landing pages anytime they want, without depending on designers and developers.

Design high-converting landing pages without having to code

- **Choose from pre-designed templates** : Pick ready-made landing page templates and over 100 content blocks designed for conversion.
- **Simplify design with the drag-and-drop builder** : No need to code; customizing your page layout is fast and easy, as simple as pointing and clicking.
- **Find the perfect images to complete your page** : Access a library of professional stock photography and royalty-free images, and vector icons for your landing pages.
- Follow video tutorial to create landing page and add custom domain
