Biography

Bishop Tim Taylor is an author, apostolic strategist, inspirational speaker, consultant, and retired U.S. Navy commander. His naval service included work on an admiral's staff during Desert Storm and experience in multinational joint operations - a background that sharpened his ability to translate vision into coordinated action. For more than three decades, Tim has applied strategic principles rooted in Scripture to help churches, ministries, civic leaders, nonprofits, and businesses clarify mission, align teams, and pursue measurable transformation.

Tim is the architect of One Church One Day, a prayer-and-action strategy used by leaders across 38+ nations to mobilize the Church in cities and regions. Through Kingdom League International and Tim Taylor Training, he equips leaders to establish sustainable prayer, form governing teams, engage the spheres of society, and turn spiritual insight into practical plans. His message brings together biblical conviction, military-grade strategy, servant leadership, and a deep commitment to unity in the Body of Christ.
