QR Code Guide

Add Your Wedding Website QR Code

Step 1

Create your wedding website using your preferred platform.

Popular options include:

The Knot
Zola
WithJoy
Minted
WedSites

Step 2

Copy the URL (website address) of your wedding website.

Example:

<https://ourwedding.com/suzanneandcharlie>

Step 3

Create a free QR code.

Visit a free QR Code Generator website.

Paste your website link into the generator.

Download your QR code as a PNG or SVG file.

Step 4

Open your Canva template.

Drag your QR code into the invitation, information card, or details card.

Resize it to suit your design.

Step 5

Print a test copy.

Always scan the QR code with your phone before printing your stationery to ensure it opens the correct webpage.

Helpful Tips

- ✓ Keep the QR code at least 2–2.5 cm wide for easy scanning.
- ✓ Use a high-contrast colour (black or dark green works well).
- ✓ Leave a small white border around the QR code.
- ✓ Test it before sending to print.

I would finish with:

Congratulations!

Your guests can now simply scan the QR code to RSVP, view your wedding website, accommodation details, registry and more.

Works perfectly with:
Invitation
Details Card
RSVP Card
Wedding Website Card
