Surface Pattern & Paper

Original patterns for paper, stationery, fabric & home

About Digital by Sue Designs

Digital by Sue Designs is an Australian surface pattern and paper design studio created by Sue, with a love of colour, simple shapes and considered design.

My work combines geometric forms, florals and coordinating patterns designed to work beautifully across stationery, paper goods, fabric and home.

I enjoy creating collections that feel fresh and distinctive while remaining cohesive, adaptable and commercially considered.

Each collection begins with an original idea and is developed into a coordinated family of patterns with product application in mind.

Alongside surface pattern design, I create paper goods and wedding stationery, bringing the same approach to colour, detail and coordination across my work.

Colour · Simplicity · Considered Design.

PAPER & STATIONERY

Patterns Made for Paper

Original surface patterns translated into thoughtful paper goods and stationery, bringing colour, pattern and personality to everyday correspondence, gifting and writing.

Peony Wedding Collection

Romantic florals designed as a coordinated wedding stationery collection.

The Peony Wedding Collection combines soft blush peonies, delicate botanical details and elegant typography to create a timeless, cohesive suite for modern weddings.

Designed to work across invitations and coordinating paper goods, the collection demonstrates how a single floral direction can be developed into a complete stationery story while maintaining consistency across every piece.

Applications:

Wedding Invitations • Save the Dates
• RSVP Cards • Menus • Table Stationery • Thank You Cards • Coordinating Paper Goods

Design Direction:

Romantic Floral • Soft Blush •
Elegant • Timeless • Coordinated Stationery
