Editing with Google Sheets

STEP 1

Access your template

To access and start editing your template, follow these steps:

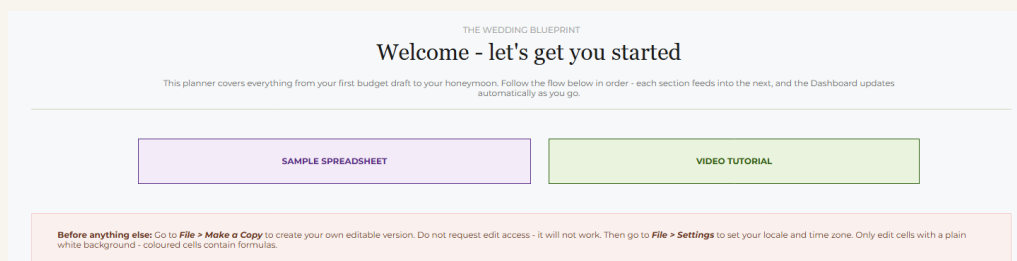

IMPORTANT

You will not be able to edit the template until you make your own copy. Do not request edit access — it will not work.

STEP 2

Read the Instructions tab

Before you start filling in your data, read through the Instructions tab inside the spreadsheet. It walks you through every section and tab so you know exactly what to do and in what order.

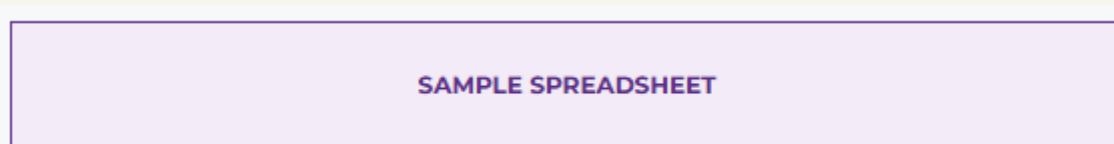

IMPORTANT

Do not edit cells with a background colour. These cells contain formulas and editing them will affect how the template works. Only edit cells with a plain white background.

STEP 3

Check the Sample Spreadsheet

Your template comes with no data pre-filled. If you'd like to see how it looks with data entered, click the Sample Spreadsheet button in the Instructions tab.

TIP

You can also make a copy of the sample spreadsheet and use it as your starting point — just replace the sample data with your own as you go.

STEP 4

Start entering your data

You're all set! Start working through the planner from the Setup tab and follow the recommended flow in the Instructions tab.

If you have any questions or run into any issues, please don't hesitate to reach out to at theplannerblueprint@gmail.com and I'll get back to you as soon as possible.

NEED HELP?

Just reach at support@theplannerblueprint.com and I'll get back to you as soon as possible!

STEP 5

Access on any device

The Wedding Blueprint is saved to your Google Drive, which means you can access and edit it from any device.

Simply download the free Google Sheets app from the App Store on iOS or the Google Play Store on Android, sign in to your Google Account, and your spreadsheet will be right there.

01

Download the
Google Sheets app

02

Sign in to your
Google Account

03

Access your
spreadsheet

IMPORTANT

If you can't see your spreadsheet, make sure you're signed into the same Google Account you used when you made your copy of the template.
