Remain Resilient: Adapt your strategies when hitting roadblocks.

Your Roadmap to Survival Spanish

Step 1: Meet the Infinitive (The Engine of Spanish)

It is impossible to express an idea without a verb. In Spanish, all base actions end in one of three ways.

-AR

Hablar

(to speak)

Estudiar

(to study)

Trabajar

(to work)

-ER

Aprender

(to learn)

Beber

(to drink)

Comer

(to eat)

-IR

Escribir

(to write)

Vivir

(to live)

Descubrir

(to discover)

Step 2: The Conjugation Algorithm

Drop the ending

Habl

Add the personal code (Yo = o)

Habl + o = Hablo
(I speak)

The pronoun (Yo, Tú) is optional!
Because the ending is the person, "Hablo" inherently means "I speak".

The Survival Endings Matrix

	-AR (hablar)	-ER (aprender)	-IR (escribir)
Yo (I)	habl o	aprend o	escrib o
Tú (You)	habl as	aprend es	escrib es

Vivo en Colombia. -> (I live in Colombia.)

Bebes agua. -> (You drink water.)

Step 3: Constructing Your Thoughts

The Simple Present tense covers habits and universal facts.

Step 4: The "Verbos X2" Super-Hack

Express complex ideas instantly using the 80/20 rule.

Skip the complex conjugations by using two verbs back-to-back.

 Cause/Effect Porque (because) Entonces (so/then) Si (if)	 Location/Origin En (in/at) De (of/from) Aquí (here)
