FROM CANDICE

“Desire is the starting point of all achievement, not a hope, not a wish, but a keen pulsating desire which transcends everything.”

~ Napoleon Hill

I believe that a woman's power is already inside her, just buried.

True Feminine Power is backed by an unlimited font of energy, creative force and intrinsic power.

It's already inside you and just needs to be revealed.

Your feminine IS the pulsating life force that, when we as women really get in touch with, own and wield, we become the unstoppable force of love, giving and creativity that we were born to be. When you are here, your values, beliefs and outlook become completely different.

This is true feminine power.

From here there is plenty for all and you know that the Universe has everyones back.

When we are out of touch with it we feel weak, powerless, unworthy and lost. We get lost in false feminine energy and try to gain it through force, fighting and proving...read on...

FROM CANDICE

The truth?

We have all four archetypes inside of us! The idea is to evolve into the true feminine archetypes and identify more and more with them and leave the false behind.

The Feminine Archetypes Blueprint is a map to show you how to evolve from false feminine beliefs and behaviors into your true feminine power.

This is a model and a map. Your true feminine is, of course, uniquely yours.

Enjoy the Feminine Archetypes Blueprint!

I look forward to encouraging you forward and upwards in your own pathway of evolution into your true authentic self.

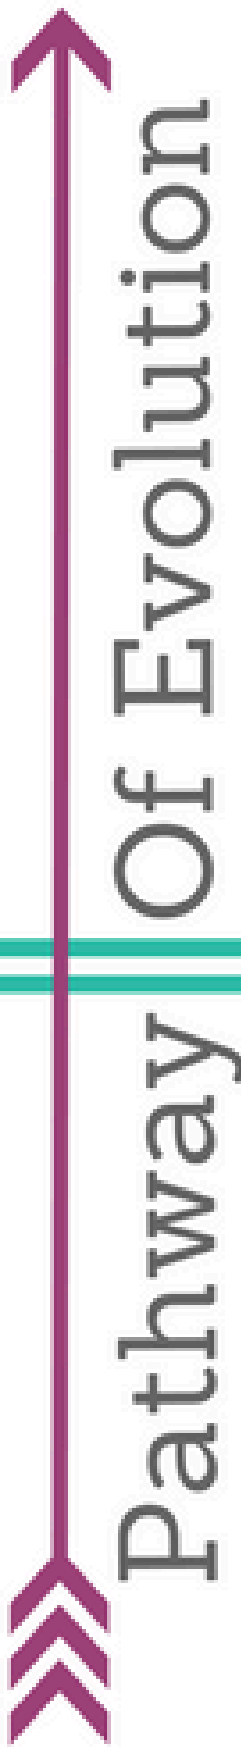

Warmly,

Candice

"Your problem is that you are too busy holding onto your unworthiness."

- Ram Daas

You believe that you can't get what you want and so why bother trying. You really want things to change but just don't know how to do that.

You are stuck in others people's perception of what is right for you.

You feel guilt or shame about something/s in your life and this leaves you feeling unworthy of better things.

You tend to be in service type roles, but you don't want to be. You don't know what you want nor what to ask for.

You put others' need and desires ahead of your own and there is then no time or energy left for yours.

You feel like a victim to your life and the world around you, but you hate this and wish it was otherwise.

You don't enjoy your body or your sexuality and feel undesirable.

You feel spent and exhausted much of the time and rarely have the energy or desire for sex.

Transformation Axis - what you need to know...

You really want things to change, but just don't know how.

Your needs and desires are as important as anybody else's. Ask yourself what it is that you really want.

Discovering and getting your desires will help you to give to others.

You are a diamond in the rough and need some mentoring to dig deep to gain better self knowledge and find out what you really want.

You are way more capable and desirable than you realize and have value to contribute to the world.

The Princess

"It takes courage...to endure the sharp pains of self discovery rather than choose to take the dull pain of unconsciousness that would last the rest of our lives."

- Marianne Williamson

You have a lot of desire, but often find yourself frustrated with not getting what you want in your life.

You often see others seem to get what they/you want and it leaves you feeling bitter and frustrated.

You find yourself fighting people a lot or defending yourself. You can be passive-aggressive and manipulative in your communication style. You tend to be moody and irritated.

You are indirect in your communication.

You are image conscious.

You believe that you have to fight to get what you want. You make sure that your needs are met before you help anybody else. You want to be like other people and have secrets idols that you wish you were like.

Your mood is heavily affected by the mood of others around you and you look to others to feel your place in the world.

You sometimes use your sexuality to get what you want by using it or with holding it.

Transformation Axis - what you need to know...

You need to learn how to get instruction from inside yourself and your body. Stop looking outside yourself for answers.

You need to realize that you can actually be yourself and people will love you without needing to be like anybody else.

You are indeed unique and seeking mentoring to help you reveal your uniqueness will save you a lot of time and money.

"You may believe that you are responsible for what you do, but not for what you think. The truth is that you are responsible for what you think, because it is only at this level that you can exercise choice.

What you do comes from what you think."

- Marianne Williamson

The Queen

"We must keep both our femininity and our strength."

- Indra Devi

You believe that the world is your oyster!

You are consciously aware of what you want and how you are going to get it.

You feel on top of things and have fantastic people around you to support your life and mission.

People respect you and look up to you. You communicate clearly and directly.

You may still find yourself overworking at times as you have a strong sense of mission and service.

You have a global vision and want to make a big impact on the world. You have cracked your inner glass ceiling.

You have a strong sense of your body, your sexuality and your feminine power and know that this is fundamental to your and others success in life, work and relationships.

You are a money magnet and have the ability to manifest whatever or whoever you want.

You are confident sexually and you love to share your power with others.

Transformation Axis - what you need to know...

You sometimes have trouble letting go of the reins, but when you do, learn to delegate to fantastic people who love to work with you.

You can sometimes be a lone wolf, but really need to seek out more community support.

Aligning more and more with your intuition is your best direction.

Keep diving deeper and deeper into your body and sexuality. Like mining for gems, It will serve as your best rudder.

The Priestess

"I am in you and you in me, mutual in Divine Love"

- William Blake

You are very conscious of what you want and that you are deeply connected to the Divine Plan for you and your people: family, clients or tribe.

You are a modern-day priestess: Spiritually connected and directed. You are very present but quite aware of the future.

You are clear on your role in the Divine Plan and you play your part willingly and with devotion.

You are more focused on the results of your clients, students and children than how much money you make.

You have a global vision and want to make a big impact for the future of humanity.

You are generous with your time and energy. You have rituals in your daily life that support your body, mind, spirit and mission.

You seek direction from the Divine and have a tight circle of support both personally and in business.

You have a strong sense of your body, your sexuality and your feminine power.

Sex to you is a way to connect more deeply to another and the Divine.

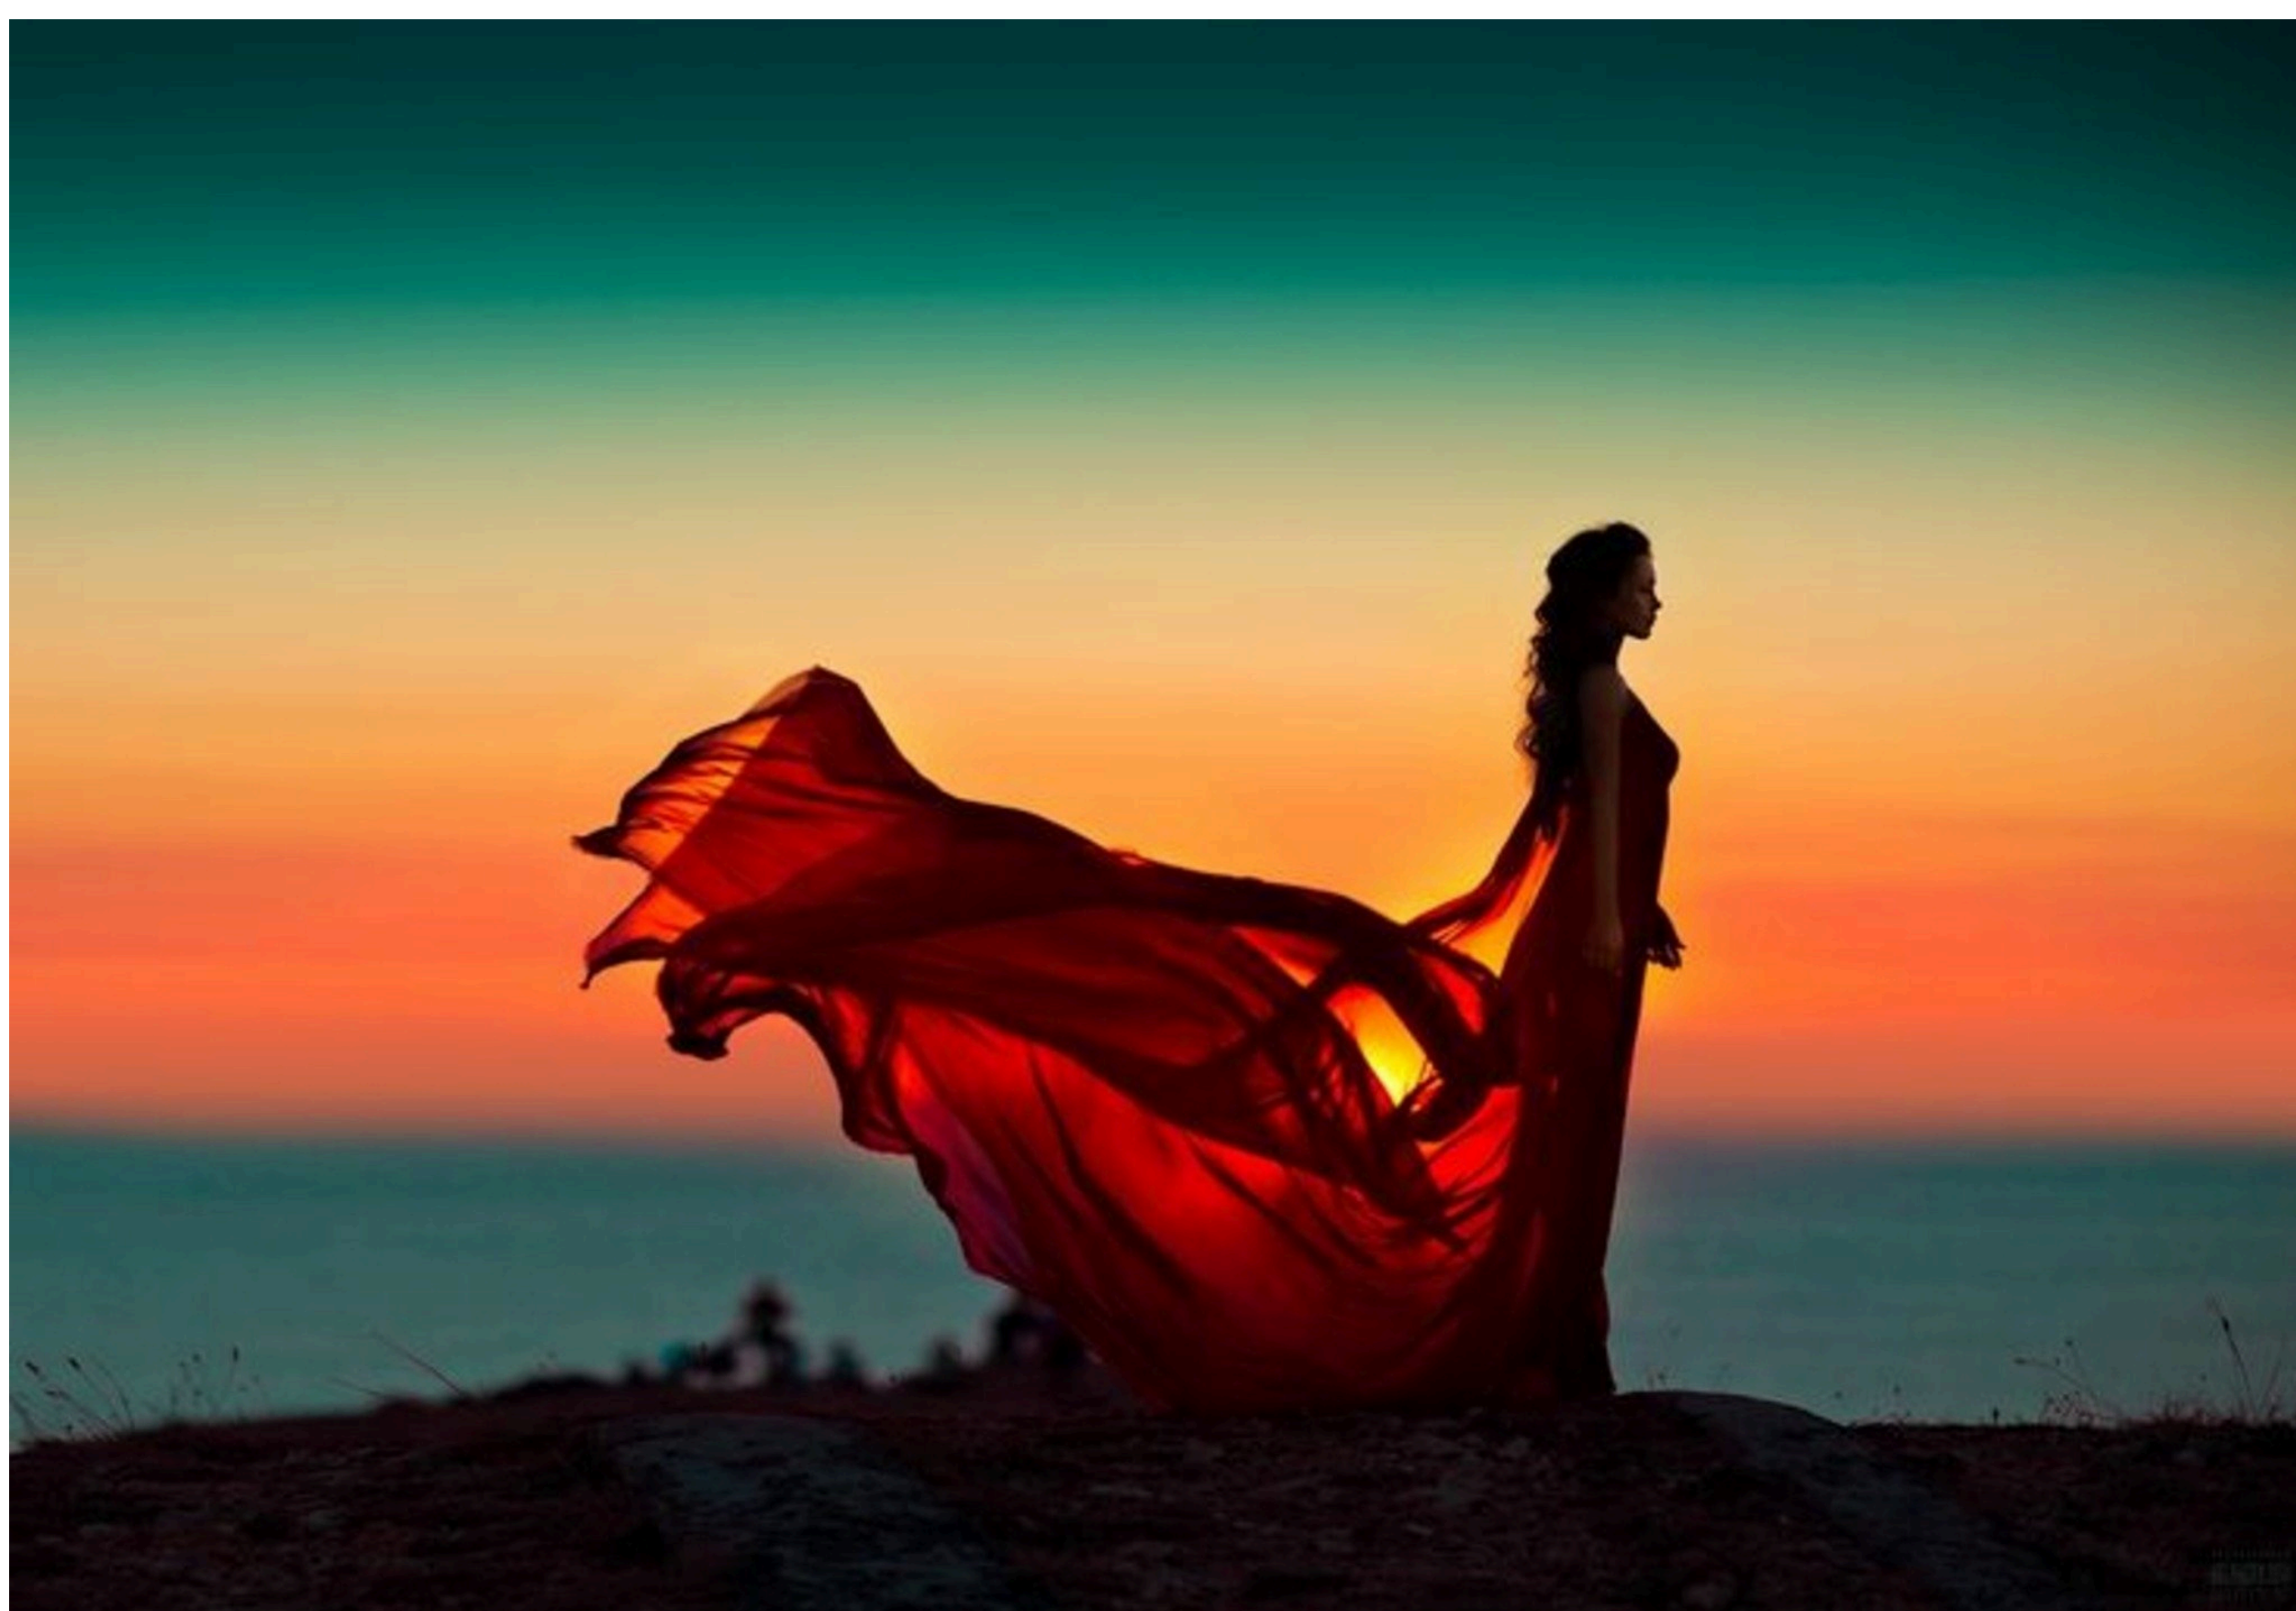

Transformation Axis - what you need to know...

You will continue to evolve, but you are in the place where you realize that you don't need to hold the reins so tightly on your life.

Continue to let go and turn up to the Divine Plan and refine your intuitive strengths.

You need to start to be aware of yourself and your tribe in terms of your timeline to the future.

The more you let go. the more you and your mission will taken care of.
