REINVENTING A WORLD LESS ORDINARY

A PARTNERSHIP INVITATION TO LOCAL DELIVERY & DISTRIBUTION PARTNERS READY TO CREATE SOMETHING THAT LASTS

enyaw™

THE WHY

THINK OF A CHILD YOU LOVE.

Now imagine the day comes when their parents cannot afford to keep them. Not because they stopped loving them. Because the economic system around them ran out of road.

That child is called Kofi. He is not one child. He is not one nationality, race or gender. He is thousands of children - in every country, every generation - where possibilities were decided before they could speak, by the environment they were born into.

The system is not broken, it's working exactly as it was designed - for the people who designed it. It extracts. It excludes. With every generation it produces another Kofi and calls it an unfortunate inevitability.

We call it what it is: A design decision. One that can be unmade

Everything Enyaw Group builds is either directly reinventing a broken part of that system, or generating the income that lets us do exactly that. This is why we're here. This is why we are looking for you.

THE REINVENTION MODEL

WE TAKE PLACES THE WORLD GAVE UP ON - REINVENT THEM - THEN GIVE THEM BACK

We work in frontier and emerging markets - the places where investment can make the biggest difference to the most people. We find distressed assets: Abandoned villages, failing resorts, struggling businesses, underused estates. Places with a story, a community, and a future that nobody has believed in yet.

Then we reinvent them. Completely. The physical environment. The business model. The community relationship. The way the project earns, sustains itself, and gives back. We don't just build better buildings. We build better systems.

Every project is documented as a real time series - part case study, part documentary, part proof of concept. The reinvention framework is then licensed to operators globally who want to do the same in their own communities.

Enyaw Group - Est. 1924

COMMUNITY FOUNDATION

EVERY PROJECT & VENTURE WE BUILD IS A CLOSED LOOP

That means value stays where it was created. We use local suppliers. We hire local people. We buy local. We train local. And we aim for local people to own the businesses we create - not just work in them.

Our profits are reinvested back into the community. Not as a gesture, as a permanent structural commitment - built into every project from day one. This funds food, water, healthcare, education, & opportunity for the people who live in and around what we build.

We do not extract and leave. We build, we invest, and we stay accountable.

This is what REAL sustainability looks like. Not a certificate on a wall. A community that is genuinely better, because we were there.

OUR STORY

WE'VE BEEN BUILDING SINCE 1924.

Four generations, Real estate, Business reinvention, Specialist engineering, Media, Finance, and Health. We've built things that lasted - and watched things fall when they were built for the wrong reasons. That experience is what drives how we work today.

We've now shifted to a global focus - An asset-light, licensing model, appying what we've learnt from a century of building, to places that need it most. We've assembled experts across the globe: architects, engineers, health specialists, investors, & local operators who share our commitment to building differently.

We're not developers looking for a quick return. We're venture builders with a long term view - and the track record, the vision, the network, and the framework to deliver on a legacy scale.

THE RIGHT PARTNER

We’re looking for two types of partner. Each must be established in the market - & have an intention to leave a positive impact on the communities we operate in

DELIVERY PARTNERS

An established track record of delivering your solution, with a commitment to providing the highest quality standards, continual skills improvement, & working to strict timelines

DISTRIBUTION PARTNERS

A large established network within the chosen sector, connection with either, target customers, suppliers, or investors

TARGET SECTORS

- Real Estate - design, construction, maintenance, operation, sales
- Hospitality - consulting, operations, marketing
- Healthcare - Non allopathic, alternative therapies
- Finance - asset management, PEVC, real estate funds, REIT's
- Media - PR, media production, media distribution
- Causes - poverty, education, orphan & child related

We particularly welcome approaches from partners in countries actively seeking investment - including post conflict regions, communities recovering from natural disasters, & areas with untapped tourism, or export potential

TARGET LOCATIONS

Whilst we deliver reinvention initiatives on a global scale, we're primarily focused on regions of the world where our work can make the biggest impact. Frontier, Emerging, & LDC market countries

Current initiatives in:

- Asia: Sri Lanka
- Africa: Sao Tome; Botswana; Seychelles; Rwanda
- Europe: Balkans; Canary Islands; Madeira; Greece
- Americas: Panama

LET'S TALK

HOW TO REACH US

Send us the details of your business by email first. If it looks like a good fit, we will follow up with a WhatsApp conversation

WAYNE FOX
Group Principal - Enyaw Group

wayne.fox@enyawgroup.com

WhatsApp: +44 7800 869 272

If you have an established business that fits our mission - we want to hear from you.

Please include in your email:

- Location & country
- Type of business
- Examples of past projects (delivery partners)
- Size of network & average revenue per customer (distribution partners)
- Why you believe this is a great opportunity
