

# A Letter Just For You

Hi there, superstar!

You are about to do some amazing math. Every time you count, add, or solve a puzzle, your brain grows stronger.

Some pages will feel easy. Some will feel tricky. Tricky is a good thing. It means your brain is learning something new.

If you get one wrong, that is okay. Smart kids make mistakes and try again. That is how you grow.

Take your time, do your best, and have fun. We believe in you.
