Alexa + Notion task management by voice

Voice Planner Setup Flow Preview

This preview helps you understand the setup path before purchasing your license during the official Voice Planner setup.

The web-first setup flow

This is the preferred setup path for Voice Planner. The exact screens may vary, but the overall flow is simple and guided.

Step	Action	What happens
1	Go to voice-planner.com	Start from the official Voice Planner website.
2	Create or log in	Access your Voice Planner account and dashboard.
3	Connect Notion	Authorize Voice Planner to connect with your Notion workspace or database.
4	Buy License	Purchase your Voice Planner license inside the dashboard.
5	Link Alexa	Connect Alexa to your Voice Planner account.
6	Open the skill	Say: Alexa, open Voice Planner.
7	Test reading	Ask: What do I need to do today?
8	Test creation	Add one new task by voice.

Important note about Gumroad

This free Gumroad download is a Starter Kit. It does not activate Voice Planner. The license is purchased inside the official Voice Planner dashboard during setup.

First reading test

After setup, start by checking that Alexa can read tasks from your connected Notion planner.

Alexa, open Voice Planner.

What do I need to do today?

What are my open tasks?

What high priority tasks are open?

First creation test

Then test the wow moment: saving one new task by voice.

Add call the dentist tomorrow at 4 PM.

Add pay electricity bill Friday in finance category with high priority.

Completion and cleanup

When a task is complete, Voice Planner can set it to DONE so it no longer appears in open task readings.

Complete call the dentist.

What are my open tasks?

What stays in Notion

- Your tasks stay organized in your connected Notion planner.
- Alexa becomes the fast voice interface.
- Notion remains the backend.
- Voice Planner focuses on essential task management, not full Notion editing.

Important: this free kit does not activate Voice Planner. To use the Alexa Skill with Notion, complete the official guided setup and activate a valid Voice Planner license inside the Voice Planner dashboard.
