## WHO WE ARE

# Executive search meets strategic matchmaking

Carter Connects is a premium professional networking and matchmaking service built for **relationships, not résumés.**

We don't blast your inbox with irrelevant connections. Every introduction is intentional, vetted, and backed by real context because your time and reputation deserve better than a cold email.

HOW IT WORKS

## A four-step process built around trust

Every step is handled with discretion and care. We're not a platform we're a partner in the process.

WHY CARTER CONNECTS

# Not a directory. Not an algorithm. A real network.

## Intentional, not algorithmic

Every match is made by people, not a platform. Context and chemistry matter.

## We know our network personally

We don't scrape databases. Every relationship in our network is one we've built ourselves.

## One good match beats 100 cold emails

Quality over volume always. Relationships that actually go somewhere.
