THE 5-MINUTE ZERO-COST TECH STACK CHEAT SHEET

How to launch an online business with \$0 upfront software costs

=====

The Big Problem:

Most online business models force you to pay \$297/month for complex software before you ever make your first dollar.

The Zero-Cost Solution:

You only need 3 simple assets to run a digital business:

1. A Landing Page (to capture leads)
2. An Automated Email List (to build trust and make sales)
3. A Simple Product Delivery System (to deliver digital files or links)

How to Set It Up for Free Today:

Step 1: Go to Systeme.io and create a free account (no credit card required).

Step 2: Pick a pre-made page template from their library.

Step 3: Connect a simple page or automated email sequence.

Tool Breakdown:

- Software Used: Systeme.io (Free Plan: 2,000 contacts, unlimited emails)
 - Upfront Cost: \$0.00
 - Time to Launch: Under 30 minutes
