What this program is

How the Bible Became a Book: The Accompanied Path is an educational course offered through The Home of Meaning, with personal support from Dr. Thaah. It presents a historical overview of how the Bible came to exist, drawing on scholarship that includes differing perspectives. It does not aim to promote or dismiss any faith. Some of this history may challenge assumptions you hold, so take the time you need with it. This program is not a substitute for professional psychological, psychiatric, medical, or religious counselling. If you are navigating a mental health crisis, please seek the care of a qualified professional.

Enrollment and capacity

The Accompanied Path is limited to 10 participants at a time. A space is open when registration is available. Your place is confirmed once payment is complete.
