

OPTIONAL GUIDED UPGRADE

DON'T JUST READ IT. WATCH IT COME TO LIFE.

If you learn faster by seeing the process, the Full System adds guided video implementation, demonstrations and deeper walkthroughs.

WHY UPGRADE?

- See how the pieces connect instead of trying to picture everything yourself.
- Follow guided implementation while completing your own checkpoints.
- Get deeper demonstrations when the core Planner intentionally stays simple.
- Spend less time wondering what the instructions should look like in practice.

BEST FOR YOU IF...

- You prefer video
- You want examples
- You want deeper guidance
- You like to follow along

THE PLANNER IS ENOUGH TO CONTINUE.

Full System is for the customer who wants more guidance - not because the Planner is incomplete.
