CUSTOMIZABLE FULL MERCH STORE PROMOTIONAL FLYER

CUSTOMIZE HERE

YOUR BEST AUDIENCE IS CLOSER THAN YOU THINK.

FULL MERCH STORE PROMOTIONAL FLYER INSTRUCTIONS

This 8.5" × 11" flyer is designed for businesses that purchase your Full Merch Store Setup service. Customize it with the business's branding, artwork and completed online store before providing it to your client.

The finished flyer gives the business an easy way to promote its new merch store to customers.

1. Add the Business Logo
Replace the Logo Here placeholder with the business's logo or approved artwork.

2. Add the Business Artwork
Replace Logo Here on each product with the business's approved artwork.

3. Add the Business Store QR Code
Create a QR code that links directly to the business's completed online merch store and place it in the large Business QR Code area.

4. Customize the Business Information
Replace [Business Name Here] with the client's business name. Review the rest of the flyer and customize any wording necessary for that business.

5. Customize or Remove the CommuniTees Promotion
Customize the small CommuniTees section at the bottom with your CommuniTees name and QR code—or remove it if you want the flyer to focus only on the client's store.

6. Review & Test
Double-check the business name, logo, product images and all other information. Always scan and test every QR code before printing or delivering the finished file.

7. Deliver to Your Client
Provide the finished 8.5" × 11" flyer as a print-ready PDF or printed copies for the business to display.

REMEMBER:
This flyer is part of your Full Merch Store Setup service, not the basic free CommuniTees listing.
