

CUSTOMIZABLE SINGLE SHIRT PROMOTIONAL FLYER

CUSTOMIZE HERE

YOUR BEST AUDIENCE IS CLOSER THAN YOU THINK.

SINGLE T-SHIRT PROMOTIONAL FLYER INSTRUCTIONS

This 8.5" × 11" flyer helps businesses promote their free T-shirt listing in your CommuniTees merch store. Customize it with the business's logo, shirt artwork, and store information before delivering it to your client.

The finished flyer gives businesses an easy way to introduce their new shirt to customers and encourage purchases.

1. Add the Business Logo or Artwork
Replace the "Logo Here" placeholder on the shirt with the business's logo or approved artwork.

2. Add the Business QR Code
Create a QR code that links directly to the business's T-shirt product page. Place it in the large QR code area so customers can scan and order.

3. Customize the Business Information
Replace "[Business Name Here]" with the business's name. Review the flyer and adjust any wording to fit the business.

4. Customize the CommuniTees Promotion
Update the small CommuniTees section at the bottom with your store name and QR code. This gives customers an opportunity to explore other businesses featured in your store.

You can also remove this section if you'd prefer the flyer to promote only the client's shirt.

5. Review and Test
Double-check the business name, logo, shirt artwork, and all other information. Scan and test both QR codes to confirm they lead to the correct pages.

6. Deliver to Your Client
Provide the completed 8.5" × 11" flyer as a print-ready PDF or printed copies for the business to display.

REMEMBER:
This flyer promotes your client's free T-shirt listing in your CommuniTees merch store. It's another way to help participating businesses generate sales while introducing more customers to your store.
