

**Dear Patient(s),**

To help reduce the cost of uninsured medical services for our patients, I would like to remind both new and existing patients about our **Annual Block Fee Program**.

Rather than paying separately for many uninsured services throughout the year, you may choose to pay one annual fee that covers a wide range of commonly requested services.

### **Annual Block Fee (HST Included) from 1st October 2026**

- **Individual: \$100**
- **Couple: \$180**
- **Family: \$250**

This represents a **13% reduction from last year's fee** and remains considerably lower than the fees charged by many medical clinics across Ontario—less than **\$8 per month** for an individual.

**If paying by cheque, please make it payable to: Dr. Stanislav Terziev.**

## Helping Us Reduce Administrative Work

By participating in the Annual Block Fee Program, you help reduce the administrative workload associated with processing numerous small uninsured service payments. This allows our staff and physicians to devote more time to direct patient care. Your participation is sincerely appreciated.

To further improve efficiency, our clinic now uses AI-assisted medical scribes to help document clinical visits. These tools allow your physician to spend more time focusing on you and less time typing.

If you prefer that your physician take notes manually, please let us know before your appointment. We are happy to accommodate your preference; however, because manual documentation requires significantly more time, we ask that you book one appointment per medical concern.

Thank you for your understanding and continued trust in our practice.

Yours sincerely,  
Dr. Stanislav Terziev
