

BUSINESS IN A BOX - QUICK START

Read This Before You Open the Guides

You are receiving one complete system divided into nine guides so you can build one digital product without trying to learn or complete everything at once.

YOUR FIRST ACTION: Open Guide 01 - Start Here. Follow the numbered guides in order. Work on one product, one guide, and one decision at a time.

WHAT YOU ARE GETTING

GUIDE	STAGE	WHAT IT HELPS YOU COMPLETE
01	START HERE	Understand the system, organize the project, and know the complete path.
02	CHATGPT FOR BEGINNERS	Learn chats, prompts, files, corrections, verification, and Context Capsules.
03	FIND AND VALIDATE	Choose one audience problem and create an approved Product Brief.
04	CREATE THE PRODUCT	Build, edit, test, and package the actual customer-ready product.
05	OFFER AND PRICE	Position the finished product, set the price, and approve the sales message.
06	FUNNEL AND EMAIL	Build pages, checkout, payment, delivery, follow-up, and testing.
07	TRAFFIC AND GROWTH	Create the content and review system that brings the right people to the funnel.
08	PROMPT VAULT	Look up the exact prompt for a job after learning that job in the matching guide.
09	WORKBOOK	Track completion, quality, launch, review, product two, product three, and next actions.

HOW THE SYSTEM FLOWS

1. FIND the problem	2. BUILD the product	3. PACKAGE the offer	4. CONNECT the funnel	5. ATTRACT the audience	6. REVIEW and improve
---------------------	----------------------	----------------------	-----------------------	-------------------------	-----------------------

THE ONLY RULES YOU NEED RIGHT NOW

- [] Do not read all nine guides first. Open the guide for the stage you are completing.
- [] Do not begin with the Prompt Vault. Learn the task in the guide, then use the vault as a fast reference.
- [] Use Guide 09 beside the build. It tracks what is done, blocked, or waiting for verification.
- [] Save approved records. Each stage creates a handoff so the next ChatGPT conversation receives the correct facts.
- [] Phone or computer? Read on either. A computer is recommended for building files, comparing information, and setting up the funnel.

DO NOT TRY TO UNDERSTAND THE WHOLE BUSINESS TODAY.
Complete Guide 01, take the next clear action, and let the system reveal the work in the correct order.

CLOSE THIS PAGE, THEN OPEN GUIDE 01 - START HERE
