A story lived.
A message your audience can use.

Traumatic brain injury survivor. Keynote speaker. Author. University of Tampa MBA. Patient advocate.

Meet Vincent

After a severe traumatic brain injury required him to relearn how to walk and talk, Vincent returned to the University of Tampa, completed his finance degree, earned his MBA, and delivered a commencement address. He brings his recovery experience, hospital advocacy, and storytelling to audiences navigating brain injury and unexpected change.

01 THE UNSPOKEN LANGUAGE OF TBI

A lived-experience program for survivors, caregivers, hospitals, rehabilitation teams, and brain injury organizations. Explore cognitive fatigue and the Brain Battery, communication barriers, sensory overload, changing roles, and identity.

02 FROM LEFT FOR DEAD TO LIVING PROOF

A resilience program for organizations, universities, associations, and community audiences. Focus on what you can control, take the next achievable step, and rebuild confidence and purpose after change.

Keynotes | Workshops | Panels | Virtual programs

Programs are shaped around the audience, event goals, available time, and desired level of participation. Request a proposal for availability, scope, fees, and any travel requirements.

Make the next step simple.

A ready-to-read introduction

Our next speaker brings a perspective shaped by survival, rebuilding, and service. Vincent A. Lanci is a severe traumatic brain injury survivor, author, entrepreneur, and University of Tampa MBA graduate. Today, he shares his lived experience to help people understand brain injury and respond to unexpected change with practical action. Please welcome Vincent A. Lanci.

Plan a program that fits

- Organization and event name; date or estimated timeframe
- Location or virtual format; audience type and estimated size
- Program of interest; available presentation time; desired takeaways
- Speaking budget; travel needs; accessibility and participation preferences

Presentation logistics

Share your room setup, microphone and screen options, virtual platform, and recording or replay requests when you inquire. Equipment needs, recording permissions, and final program details are agreed during planning.

Words from an event organizer

“He is very professional and comes prepared.”
Dr. Angelica Acree
Licensed Clinical Psychologist, Tampa General Hospital
