Your Pantry Printables

Thank you for cooking with me. Here are a few sheets to print and keep in the kitchen. The Savings Calculator spreadsheet comes in the same download: open it in any spreadsheet app, on a computer or a phone.

1. **My Savings Sheet**
   Tape it inside the pantry door and fill in a row each time you make a new jar.

2. **Holiday Gift Tags**
   One for each of the six Holiday Gift Jars (pages 164 to 169). Print on cardstock, cut along the outline, punch the hole and tie it on with the ribbon.

3. **Blank Pantry Labels**
   Labels like the one on page 10, in two sizes: the mix and its page, the dose, the date you made it and the use-by date.

HOW TO PRINT

Use Letter paper and print at Actual size (100%), not Fit to page, so the labels come out the right size.

Cardstock works best for the gift tags. For the labels, use plain paper and clear tape, or full-sheet sticker paper.

Now go grab a jar.

YOUR FREE BONUS · SAVINGS CALCULATOR

My Savings Sheet

Tape it inside the pantry door. Each recipe's red price stamp gives you the first two numbers: about what one packet, box or can's worth costs from your jar, and about what the store charges. Your store's prices beat mine, so use them when you have them.

MIX	PAGE	FROM MY JAR	AT THE STORE	I SAVE	HOW MANY A MONTH	I SAVE A MONTH
FOR EXAMPLE *Fajita Seasoning*	23	$0.20	$1.84	$1.64	2	$3.28

My jars save me about _____ **a month · × 12 = about** _____ **a year**

Want the math done for you? The Savings Calculator spreadsheet in this download has all 120 jars filled in. Prices are approximate, from US supermarket prices in October 2026. Your savings depend on your store.
