PROMPTS**

GETTING STARTED

WHAT IS A PROMPT?

A ChatGPT & Gemini prompt is a phrase or instruction you give the ChatGPT & Gemini AI model to generate a response. Prompts can be anything from a question, statement, or other words intended to create AI-generated responses.

HOW TO MASTER PROMPTS

Practice makes perfect, but remember you are working with a machine! Make sure you edit your content to reflect YOU! As a reader, it's easy to pick poorly executed AI-generated content.

ChatGPT & Gemini is very useful for ideas and inspiration but please, don't use it as a substitute for sharing your unique stories and personal insights.

TIPS FOR PRODUCING GOOD RESULTS USING AI

- Give Specific and Direct Instruction
- Provide Context
- Include the instruction "Act As..."
- Include content that you want to be incorporated in the response.
- Set the Tone or 'Personality'
- Limit Response Length.

EXAMPLES OF PROMPTS

For a Social Media Post

You

Create a social media post for a creative audience, using a friendly tone that poses the question, 'What's a book, podcast, or TV show that has had a significant impact on your life?'

ChatGPT or Gemini

"Hey friends! We all have that one book, podcast, or TV show that has left a lasting impact on us. So, here's a question for you: What's a book, podcast, or TV show that has had a significant impact on your life? Did it inspire you to pursue a new passion or maybe change your perspective on life? Let's share our favourite media and stories that have touched our hearts and souls. Drop your recommendations in the comments below! #inspirationalmedia #lifechangingstories #shareyourfavorites"

Tip: You may begin this post with a personal comment like, "I love to hear about books or podcasts or TV shows that my friends recommend. For example, my friend Jo told me about (name of book), which helped her understand why she woke in the middle of the night, unable to get back to sleep, and now she sleeps like a baby. That's amazing, right?"

EXAMPLES OF PROMPTS

For a Blog Post

You

Write a blog on the topic of how artists can enlist support from their local community. Act as a freelance artist who is successfully building networks and gaining visibility for their work in their local community.

ChatGPT or Gemini

Here is the summary as generated by ChatGPT:

Building a strong support system within your local community as a freelance artist requires dedication, creativity, and a genuine passion for connecting with others. By actively engaging with local events, collaborating with businesses, leveraging social media, offering workshops, attending community meetings, and showing gratitude, you can create a network that not only supports your artistic endeavours but also enriches the cultural fabric of your community. Remember, the key is to build meaningful relationships that extend beyond the realm of art, creating a foundation of support that will sustain your artistic pursuits in the long run.

Tip: AI produces a style for blogs that is easily recognised. Be sure to edit the work and check thoroughly for accuracy. And don't forget to add your personal touch and ensure your 'voice' is heard.
