What is the TikTok Shop Affiliate Program?

The TikTok Shop Affiliate Program is a marketing initiative that connects creators and sellers through creativity and commission.

It offers new monetization opportunities for creators and new marketing channels for brands. Sellers can link up with creators and pay commission on successful sales, while creators can promote brands that are relevant to their followers.

Creators can easily find products to sell, recommend products in videos and livestreams, and get paid commission on their sales.

The program offers different commission plans based on sales needs, and commission is automatically paid as a percentage of sales.
