# CREATE & SCHEDULE 30 REELS IN 1 DAY!

A step-by-step checklist  
to create & schedule 30  
Instagram Reels in 1 day!

# IG REELS CREATION CHECKLIST

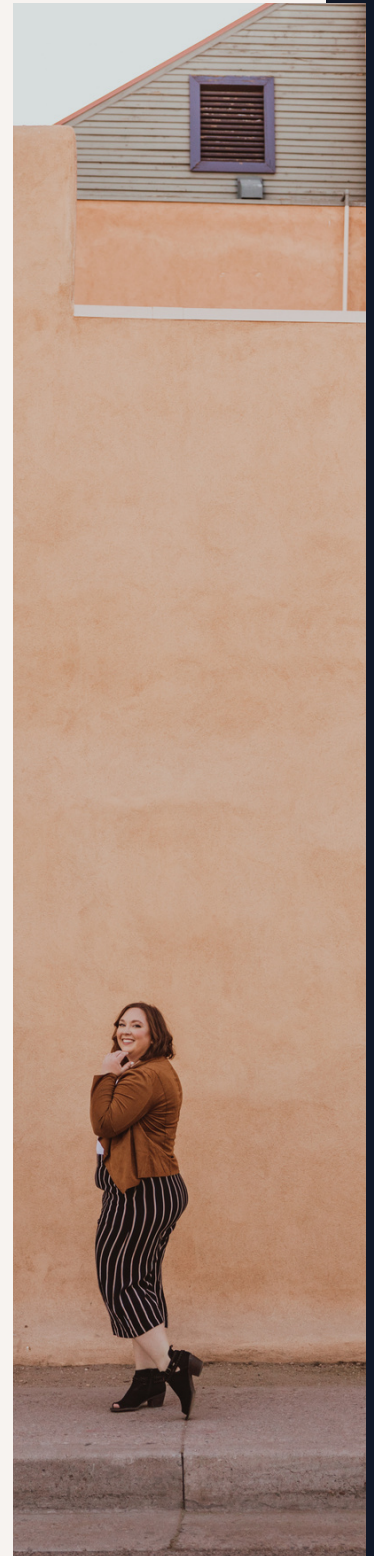

## 1. Find 30 Reel/TikTok trends you'd like to do and save each link in a word doc.

- Bonus Tip: Here's a tutorial I made showing you how to find and save trends: <https://www.youtube.com/watch?v=UXP0McofoNE&t=19s>
- Bonus Tip: Our membership, Freedom Creator Club, comes with a Reels/TikTok trend database that we update every single month for you! So you never have to waste your time watching countless hours of reels and finding the trends! <https://freedomcreator.co/club?el=reelfreebie>

## 2. Decide which day you're going to film these and put it on your calendar (can be the same day).

## 3. Gather a few outfits, do your hair/makeup (optional of course), open the word doc with the trends saved & film the 30 Reels (don't worry about editing them yet, just film them)

- a. Click the link of the saved reel
- b. Click on the audio
- c. Click "use audio"
- d. Film the reel
- e. Click "next"
- f. Add text or anything you'd like (you can also do this later, I prefer to just film everything and then go back and edit everything so I'm batch working)
- g. Click "Next" again
- h. Click "save draft"

## IG REELS CREATION CHECKLIST

4. Repeat this until you have all your reels filmed
5. Go into your drafts folder in Instagram, open a reel, edit that reel how you'd like, add your caption/hashtags and repeat until all the reels are created, saved as drafts, and edited.
6. From here you can leave them in your drafts folder and publish them manually as you'd like OR...
7. You can create & save these as drafts on a **SECRET IG account** (not your main one), publish them, download them using <https://snapinsta.app/> & once you have them all downloaded delete them from your secret account.
8. From there you can schedule all the final IG Reels at the date/times you'd like them using <https://later.com/r/support-f2877f>
