ACADEMY

STUDENT REGISTRATION REQUIREMENTS

Here are the requirements and tools that you need to be able to succeed here at zukulee Blockchain Academy

[READ BELOW](#)

You need a computer

When you are trading cryptocurrency, you need to analyze the market and study graphs to make every small investment. That is the reason a trader also requires a good computer. All the Crypto exchange platforms and applications that we use are computer based and It is also easier to navigate the systems from a computer. You should go with a fast speed computer with a LAN port/Ethernet port.

GET ONE BEFORE CLASS BEGINS.

You need a phone

So when it comes to the exciting world of cryptocurrency, you'll most likely want to be able to do some trading on your phone. The bottom line is that phone-based trading is not as safe as the one on a desktop. However, the convenience of accessing your wallet anytime and anywhere is worth the trade-off.

You need a VPN for your phone

With a VPN for crypto trading, however, The network you're using might have poor security, which hackers can exploit, but the VPN encryption will make up for it. Yes, even if you accidentally connect to a fake network, a VPN Protects You from Phishing

Buy a notebook

In addition to paying attention in class, lecture notes can be your most powerful study resource. Yet many students don't bother with it, thinking they can get necessary information from their textbook, PowerPoint presentation. Most people don't realize the value of notes. Taking notes during the lecture lets you know exactly what you've covered in class, which topics to skip, and where you left off. Take notes on instructors emphasis about a subject line . Don't be the student who skips the review of Chapter 'X' because you didn't take notes and forgot it was on the exam.

Bring your whole self to class

Be present in class

Class attendance is a main factor in the academic success of student. Absenteeism brings a lot of negative effect in a student future. Being present alone is a big win for each student. Notify in advance if you will miss a class.

Write down your end goal of what you want to achieve here at zukulee.

Making a study plan is a far more effective way to retain knowledge, leading to better results. Be intentional about your goal and what you want to achieve here at zukulee. Be active in your class group.

Read and listen to understand

When you are in class, listen to understand, if you don't understand, ask questions, if things are not clear, ask your group members for help (You will have class work groups)

YOU NEED TO BRING ALONG A TRADING CAPITAL

Zukulee Challenge gives our students the opportunity to test their knowledge and tools given to them in class in a real live platform while giving our students the opportunity to challenge themselves, Use the strategies taught in class to perform trades and investments. This is also a zone where students test their psychology as a crypto trader and investor. In the end, the winner and participants feel more confident in embarking on the crypto investment journey with ease. This is also a good starting point where students begin to learn how to make money while studying here at zukulee.
