# YOUR 90-DAY LAUNCH PLANNER

***Turn One PLR Product Into a Profitable,  
Automated Business in 3 Months***

## Why This Planner Works

Most people never make money online because they start without a plan.

They download resources.

They take notes.

But they don't take consistent, strategic action.

This 90-day planner fixes that.

You'll know exactly what to do each week to go from idea → income → automation.

## **The 90-Day Overview**

- Month 1: Build — Set up your foundation.
- Month 2: Launch — Go live and promote.
- Month 3: Automate & Scale — Streamline your systems for passive income.

Each phase is designed around momentum, not perfection.

### **Month 1: Build (Weeks 1-4)**

*"Done is better than perfect."*

Goal: Create your digital foundation using your Autopilot Earnings bundle.

Weekly Focus:

- Week 1: Pick your product & audience
  - → Choose one PLR product that solves one clear problem.
- Week 2: Rebrand your product
  - → Customize the title, design, and tone to fit your brand.
- Week 3: Set up your funnel
  - → Import the ready-made Systeme.io funnel and personalize it.
- Week 4: Write or load your 3-5 email sequence
  - → Use your pre-written swipes, then add a personal story.

 By the end of Month 1, your funnel is built and ready to launch.

### **Month 2: Launch (Weeks 5-8)**

*"Visibility creates velocity."*

Goal: Get traffic, test your funnel, and make your first sales.

Weekly Focus:

- Week 5: Test your funnel
  - → Opt in yourself, fix broken links, ensure automation triggers.
- Week 6: Share your freebie
  - → Post it on social media, in Facebook groups, and with your email list.
- Week 7: Collect data
  - → Track sign-ups, clicks, and sales. ✓
- Week 8: Adjust messaging
  - → Refine your headlines and emails based on what works.

 By the end of Month 2, you'll have leads, data, and (very likely) your first sales.

### **Month 3: Automate & Scale (Weeks 9-12)**

*"Systems create freedom."*

Goal: Automate your business so it runs even when you don't.

Weekly Focus:

- Week 9: Set up tagging & segmentation in Systeme.io
  - → Separate buyers from non-buyers.
  - Week 10: Add a nurturing campaign
  - → Send ongoing value + soft offers (you already have this sequence).
  - Week 11: Add new traffic sources
  - → YouTube shorts, Pinterest, or small paid ads.
  - Week 12: Create your second funnel
  - → Duplicate your success with another PLR product from your bundle.
- 🎯 By the end of Month 3, you'll have a running business — not just a project.
