Introduction

My name is Sen Ze, and I am a lawyer by profession. I obtained both my Bachelor's degree and postgraduate degree in law in the United Kingdom.

I was then called to the English Bar, which made me a "Barrister-at-Law".

Here I am, with my mates during our call to the English Bar, having obtained our post-graduate law degree at Lincoln's Inn, UK. We are each officially a "Barrister-at-Law", which means we can now appear before a judge to represent our clients to argue their cases.

Although I didn't know it then, this would be the start of my journey into a world of exciting extremes that would culminate in what I think is one of the best Passive Income Systems ever created which can be done completely online.

It's perfect for those who want to start making money online, or complement their existing method.

I am now a partner with my brother in his law firm. I started working there when I was a fresh lawyer out in the workforce.

It is there that I first applied the magic of technology to his firm's processes, to both **significantly** reduce its expenses and increase its revenues.

I always have a soft spot for technology and automation in helping me make money – why use more effort than is necessary? So I'm neck deep in this area as well.

I started practising as a lawyer in my brother's firm, eventually becoming a partner. I applied the magic of technology to the firm's processes, with amazing results.

So when the Internet arrived way back in 1995, I jumped in without any safety vest to figure out how I could use it to make money online.

It started as a hobby. I set up my first website to sell my first e-book to the world for USD97 each, way back in 1999 (the one in the top left corner below):

This first e-book of mine sold 5,000 copies over a few years as a part-time venture. I earned almost **USD500,000** from that single e-book, a fact that still stuns me today.

I then wrote more books (both physical and digital) about the various aspects of technology as applied to businesses and wealth creation, as new developments appeared on the scene.

Over the years, I expanded from selling information only, to selling my own cloud software that could automatically set up a website for entrepreneurs with a push of a button, to coaching others on how to become an Internet Entrepreneur, to offering "Done-For-You" (DFY) and "Done-With-You" (DWY) services to get my customers started on their online money-making journey quickly without needing to worry about technical requirements.

I have also been a successful Affiliate for other online entrepreneurs.

I wanted a way to make things much easier for anyone to make good money online, without all the major issues.

The 9th Wonder Of The World Passive Income System is the solution.

It has some major advantages, in that it's **VERY EASY and requires little to ZERO effort** to operate.

Literally **ANYONE** can do this.

And yes, it can generate high profits for you **100% passively**.

It's also 100% legal and legitimate.

I think you'll like what you see.

With that said, let's dive in.

The Amazing Passive Income System That Most People Wishing To Make Money Online Don't Know About

The 9th Wonder Of The World Passive Income System can work alongside any other money-making system that you are already implementing.

If you haven't started on the other methods, it can also be your main method of making money online.

It has a lot of advantages over the other methods that you probably would not believe or think is possible.

But they really are true!

Here are some of the advantages:

1. It's probably the EASIEST & QUICKEST method to make money online ever created.

I've been an entrepreneur for over 30 years.

I don't know of any other method that is easier or quicker to do.

2. You can get started IMMEDIATELY after it's set up for you (if you wish).

Setup takes 40 minutes over a single ZOOM session.

You can be making money within hours (and oftentimes minutes) after that.

Yes, really (if you wish).

3. It generates profits for you 100% passively.

You really don't have to lift a finger to make those profits once you set it to run.

You earn pure passive income.

4. You don't have to create a product to sell.

There is no website or funnel to set up.

There are no emails to send at any time.

You don't have to send DMs (Direct Messages) to anyone at any time.

5. You don't have to source for products to sell.

You have no product suppliers to deal with.

You have no product liability.

There's no need to ship anything to anyone.

6. You are not an Affiliate for a merchant with a product to sell.

You don't have to look for merchants with good products to sell and to apply to be their Affiliate.

There is no website or funnel to set up.

There are no emails to send at any time.

There are no DMs to anyone at any time.

7. You don't have to generate traffic at any time.

There is no need for daily social media postings at all.

No need for social media accounts.

No need to comment on other people's blog posts.

No need to buy ads.

No need for SEO.

You don't do any traffic generation activities **AT ALL**.

You don't need to refer anybody to anywhere, or anything.

8. You don't have to do any customer support.

There is no need to do this at all.

9. You can remain completely anonymous

Nobody will be contacting you at any time.

10. It's perfect for almost everyone.

The busy individual.

The overwhelmed professional.

The technology-challenged.

The stay-at-home Mom and Dad.

The shy and introverts.

The MLM-averse.

The retired.

The side-hustle seeker.

The investor, big or small.

The passive income enthusiast.

The frequent traveler.

The freelancer.

The skeptic.

The complete dummy on making money online.

11. You can do this anywhere in the world.

You can travel and do this.

It will earn for you while you're sleeping.

You will be earning PURE Passive Income.

12. ALL the money you earn are 100% yours to keep

Nobody overrides on any of your profits.

You never share your earnings with anyone at any time.

13. Withdraw your earnings at any time of the day.

Even at 2 o'clock in the morning.

No notice required.

Get your earnings in your local bank account within 30 – 60 minutes.

14. It is 100% legal and legitimate.

You are compliant with regulations.

Everything is transparent as you will know exactly how the profits are made.

The platforms used are trusted by millions of users globally.

There are no pyramid schemes.

Sounds good?

Then get ready for...

The 9th Wonder Of The World Passive Income System (Pay Close Attention!)

When it comes to passive income, there are 3 ways to achieve it:

1. You use your time and effort to create products or content that lead to the purchase of a product again and again (you become an entrepreneur);

OR

2. You create something that others will want to use and pay you an ongoing royalty to use it (you make music, movies, characters, etc);

OR

3. You use your money to invest in assets that give you returns either in the form of dividends (if stocks), and the appreciation in their value over time.

No.1 and No.2 above are the most difficult to do as you're using your sweat, time and effort to create passive income.

No.3 is the easiest to do as you're using money, not your time and effort, to create the passive income.

However...

If you put your money into CDs (Certificates of Deposit) with your bank, you will only earn 1% - 3% a year.

If you put your money into stocks, the stock market will usually give you returns of only 6% - 10% a year on your capital.

Because using money to create passive income the usual way does not produce any huge profits unless the capital is large to begin with, most people prefer to start businesses, or become an Affiliate for a business.

But what if there is a way to get much higher returns on your money – **as high as 0.5% - 1.0% or higher per DAY (or 15% - 30% or higher a month)** – but without incurring sky-high risks to earn those returns?

Well, now you can.

The secret is in the **ASSET** you're investing in, and **HOW** you invest in them.

This asset has now gained recognition by the US government after years of being vilified by some influencers who are only protecting their own interest, not ours.

That asset is **cryptocurrencies**.

However you feel about cryptocurrencies, you need to read the following very carefully because it can literally create the life-changing wealth you are looking for, or multiply your current wealth **10x or more**, in a few months or a couple of years, instead of 20 – 30 years for others!

The NEW Legal Asset & Your Quickest Path To Wealth Creation

I don't know if you know about this.

Starting in January 2024 and by July, the **US's Securities Exchange Commission (SEC)** approved 11 (eleven) **ETFs** (Exchange Traded Funds) for bitcoin (BTC), and 8 (eight) **ETFs** for Ethereum (Ether).

Explainer

The SEC has approved bitcoin ETFs. What are they and what does it mean for investors?

The SEC has given the green light to 11 exchange traded funds for bitcoin, opening the door to cryptocurrencies for many new investors

The US securities regulator has approved the first US-listed exchange traded funds (ETF) to track bitcoin, in a watershed moment for the world's largest cryptocurrency and the broader crypto industry.

Ether ETFs appear set to launch on Tuesday, six months after massive debut for bitcoin funds

KEY POINTS

- Trading is expected to begin as soon as Tuesday.
- The ether exchange-traded funds come about six months after the launch of bitcoin ETFs, which saw some of the most successful debuts in the industry's history.
- BlackRock, Fidelity and Grayscale are among the firms slated to launch funds.

Ok, so what?

ETFs are simply investors' funds managed by a fund manager for a fee.

A bitcoin ETF buys and sells bitcoin. Investors in bitcoin ETFs don't have to deal with the technical details of setting up a cryptocurrency wallet, or buying bitcoin directly from exchanges themselves.

They simply buy shares in the ETFs like they buy shares in a company. The ETF managers will then invest their money in bitcoin and Ethereum for them, which simplifies everything.

Now Bitcoin and Ethereum are the 2 best known cryptocurrencies in the world.

Bitcoin was created in 2009, and Ether was created in 2014.

Cryptocurrencies enable money to be transferred to another person much quicker and cheaper than bank transfers.

A cryptocurrency transfer to anywhere in the world can take only minutes to be completed and costs a few cents.

A bank transfer to an overseas recipient will usually take 2 – 3 days to complete and costs about 2% of the amount transferred.

For this reason, cryptocurrencies have been criticised repeatedly by billionaire shareholders of banks as being “worthless”, when in fact they provide a lot of value to individuals like you and me by being more efficient and much cheaper to use, which in turn threatens the banks’ yearly multi-billion-dollar remittance business.

In any case, the US government has now recognised cryptocurrencies’ value and investors’ interest in them, by approving Bitcoin and Ether ETFs after years of stalling on a decision.

This is because cryptocurrencies not only have a lot of value to us, but they have also created **millions of new jobs** that previously did not exist.

So there isn’t any doubt **now** about cryptocurrencies’ value to the world, and whether they are legal assets to hold.

The only question that’s left is – are you going to take advantage of this?

If so – do you know how to do it without using the ETFs to not only save on the fund manager’s fees, but also to have even more opportunities to profit?

Read on, because I’ll show you.

But before that....know the following:

Cryptocurrencies Are The Only Asset In The World That Can Appreciate Millions Of Percent In A Fraction Of The Time

When bitcoin was first released in 2009, it cost less than \$0.01 each.

It’s now hovering at \$60,000 each as at the time of this writing.

If you owned some bitcoins then and only sold it now, your profit would be a staggering **600,000,000%**.

Read that again. That’s not a typo.

That's **SIX HUNDRED MILLION PERCENT**.

Or **SIX MILLION TIMES (6,000,000x)** its original price!

When Ether was released in 2014, it cost \$0.31 each.

It's now hovering at \$2,600 each.

This is a return of over **838,000%**.

That's EIGHT HUNDRED AND THIRTY EIGHT THOUSAND PERCENT.

Or 8,380x its original price!

Can you name me another type of asset with these insane high rate of returns in such a short period of time, at any time in its history?

YOU CAN'T.

And with the SEC giving legitimacy to the crypto market, and with more ETFs being approved by it, **you can bet that interest in the crypto market will increase significantly.**

And Here's How You Can NOW Quickly Multiply Your Wealth

And the truth is simply this.

You don't need to earn millions of percent in a few years, to create life-changing wealth quickly or add to your current wealth.

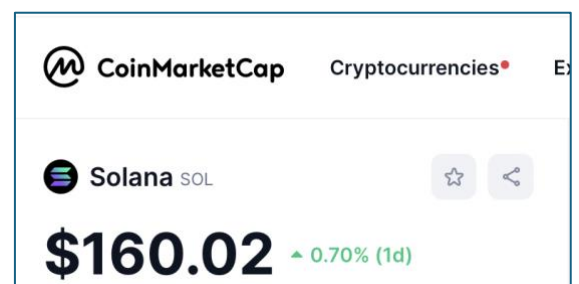

In fact, some of the newer cryptos can give you returns of between **10x (1,000%) to 100x (10,000%)** between now and in the months ahead!

Like **SOLANA (SOL)**, which cost \$0.50 each at its lowest in May 2020, now costs \$160.02 each as at the time of this writing.

This is a price appreciation of **320x**, or **32,062% (THIRTY TWO THOUSAND PERCENT)!**

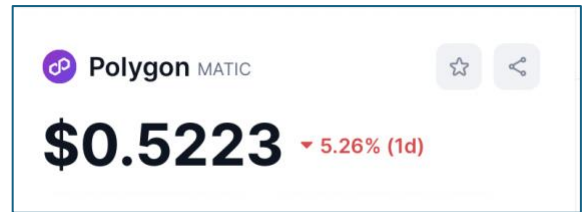

Which means that a \$1,000 investment in SOLANA in 2020 is now worth...a whopping \$320,000 – in just 4 years!

That's an appreciation of **8,000% a year!**

Or **POLYGON** (MATIC), which cost \$0.003 in 2019, and now costs \$0.53 each at the time of this writing.

This is a price appreciation of **176x**, or **17,600%** (**SEVENTEEN THOUSAND SIX HUNDRED PERCENT**)!

Which means that a \$1,000 investment in POLYGON in 2019 is now worth...a staggering \$176,000 – in just 5 years!

That's an appreciation of **3,250% a year!**

Now if cryptocurrencies are not a life changing asset, I don't know what is.

And Here's The Even Better News

The best days for crypto are still ahead of us.

Why?

Because, as I've said, the US's SEC has already recognised the crypto market's legitimacy with its approval of Bitcoin and Ethereum ETFs (with more cryptos to follow)!

This express approval by a mighty governing body of the US government will likely lead to more crypto investors coming onboard in the days and months ahead – **many, many more** than when bitcoin and Ethereum first came onto the scene.

And With There Being Hundreds Of New Cryptos Being Released Every Year, With An Expected Significant Increase In Demand For Them...

You now have a **buffet** of cryptos to choose from to earn from their expected significant and quick appreciation.

Things in the crypto world have never been better for you!

But Now You Have 2 Problems

1. You don't know which new cryptos will have the potential to appreciate 10x - 100x in the next few months.

There are **thousands** of cryptos already released, with hundreds more being released every year.

How do you decide which cryptos have the best chances to potentially give you returns of thousands of percent?

2. You don't want to wait 2 - 3 years or longer to realise your profits.

You want to earn the profits **NOW**.

As in **RIGHT NOW**.

As in - you want to be able to start earning high returns on your cryptos and withdraw your profits at the end of the month to spend on anything you like, or to re-invest back into your cryptos to earn even more.

If so, you're in luck.

Because...

Here Comes The 9th Wonder Of The World Passive Income System!

There are 3 parts to this system.

They are all passive in that you don't have to lift a finger to earn the income once they're set up or implemented:

The 9th Wonder Of The World 1: Massive Automation

The 9th Wonder Of The World 2: From 10x To 100x

The 9th Wonder Of The World 3: The Dual Multiplier

Do them all together, and you will have an amazing passive income system that will continue to produce high earnings for **you and your children for years to come!**

This Special Report will focus on The 9th Wonder Of The World 1: Massive Automation. The other 2 equally exciting and equally little-known will be revealed in my FREE Bonus 1:1 call at the link below:

[Register your FREE BONUS 1:1 Call with me here.](#)

The 9th Wonder Of The World 1: Massive Automation

1. You have the potential to earn a **minimum of 0.5% to 1.0% or higher returns** on your capital in a **SINGLE DAY**. This translates into **15% - 30% or higher profits a month**, or potentially **180% - 360% or higher in a year**. You can withdraw your money at any time you wish.
2. In the more advanced version of this, you may even earn **10% - 20% in a SINGLE DAY** (see real results below).
3. You will use a special, legitimate and neutral 3rd party software that will be connected to the licensed exchanges of your choice, to **automatically** buy and sell your selected cryptos. You pay a small subscription to the vendor to run it in the cloud, so that you don't have to keep your own computer running for this purpose.
4. This special software uses **AI (Artificial Intelligence)** to find the best-performing cryptos that can potentially return profits of between 0.5% - 1.0% or higher per day on your capital. You can see them all **at a glance** without wasting any time having to find them yourself.
5. You then decide which cryptos you would like to start a "bot" (or robot) on. This will take less than 2 minutes. You do **NOT** start bots on cryptos that don't give you an indication of returning profits in this range.
6. Once your bot is set, you're done. Your bot(s) will **automatically** buy some cryptos you have selected at low prices, and sell them at higher prices for you to earn a profit.
7. There's nothing else for you to do other than just to look at your profits coming in within hours, and oftentimes within **minutes**, and when you want to take profit by closing the bot (takes 10 seconds). You can leave your bot running for hours, days, or weeks at a time, depending on which strategy you want to use.
8. The **minimum** investment for this to work is only \$500 per crypto. You can choose to invest \$1,000, or \$2,000 or higher. Some of my clients invest \$3,000 per crypto.
9. You can choose to invest in only 1 crypto, or up to 10. I suggest you do **no more than 5** if you want to go this route so that you don't want to manage too many cryptos. You can invest more capital in fewer cryptos instead of less capital over many cryptos. **Simple is better.**
10. Here is what the software looks like, and the cryptos that I have chosen to be automatically traded using it. I have blanked out the names of the cryptos under Column 1 as they are useless to you if you're not using 9WOW-1 to automatically trade them:

Ex.	Strategy	Current value	Total PNL	Bot profit	Avg. daily
	Crypto 1	985.37 USDT	45.48% 454.89 USDT	46.43% 464.38 USDT	3.13% 14d 20h
	Crypto 2	1 004.06 USDT	37.04% 370.41 USDT	36.39% 363.96 USDT	2.45% 14d 20h
	Crypto 3	999.11 USDT	17.10% 171.04 USDT	17.01% 170.10 USDT	1.14% 14d 20h
	Crypto 4	983.95 USDT	13.65% 136.57 USDT	15.03% 150.33 USDT	1.01% 14d 19h

The capital for each crypto in the above screenshot is **\$1,000**. There are 4 of them, so the total investment is **\$4,000**.

As stated, you can also get by with just **\$500 per crypto**, and just focus on a **single crypto**.

The **daily** profits on the capital in percentage terms will be similar whether you put in \$500 or \$1,000 or higher. You just adjust the settings for amount of capital in the bots accordingly.

Column 2 shows the **PROFIT** for each crypto being **automatically** bought and sold by the auto-trading software's bots for almost 15 days (14 days and 20 hours), or about 2 weeks.

Let's look at the bottom row and work our way up.

Crypto 4's total profit up to now is **15.03%** or **\$150.33** on a capital of \$1,000.
 Crypto 3's total profit up to now is **17.01%** or **\$170.10** on a capital of \$1,000.
 Crypto 2's total profit up to now is **36.39%** or **\$363.96** on a capital of \$1,000.
 Crypto 1's total profit up to now is **46.43%** or **\$464.38** on a capital of \$1,000.

Add up all the **total** profit percentages for all the 4 cryptos and divide the sum by 4, and the **average** total profit percentage for each crypto is **28.72%**.

The investment is \$4,000, so if I take profit now by stopping all my bots, I would have made a total of **\$1,148.80** (which is 28.72%).

That's an almost 30% profit on my capital -- in just over 2 weeks!

Column 3 shows the average **DAILY** profits over the duration of 14 days and 20 hours.

This average daily profit figure is obtained by dividing the total profit percentage for each crypto up to now, by the number of days the bot for the crypto has been running.

As you can see, and once again working up from the bottom row:

The average **DAILY** profit for Crypto 4 is about **1.01%** (15.03% divided by 15 days)

The average **DAILY** profit for Crypto 3 is about **1.14%** (17.01% divided by 15 days)

The average **DAILY** profit for Crypto 2 is about **2.45%** (36.39% divided by 15 days)

The average **DAILY** profit for Crypto 1 is about **3.13%** (46.43% divided by 15 days)

I don't know about you, but I'm pretty sure no other asset class can give you those **DAILY** returns on your capital of between 1% – 3% in a single **DAY**.

As stated, your bank is probably giving you 2 – 4% in a single **YEAR**.

The stock market usually averages 6 – 10% returns a **YEAR**.

By all means do keep some money in those places if you wish.

But if you don't also allocate some for the crypto market, you will be missing out on an **once-in-a-lifetime opportunity** for you to really multiply your wealth in the quickest time possible that you have **never** been able to do before cryptos were created back in 2009!

11. You will want to set this massive automation up (with my help which takes only 40 minutes), how to select the top-performing cryptos and how to set the bots up for maximum profits and minimum risks.

The 9th Wonder Of The World 2: From 10x To 100x

1. With The 9th Wonder Of The World 2, you have the potential to earn between **10x – 100x (10 times to 100 times)** your capital over the next few months. This is between **1,000% - 10,000% returns** on your capital.

2. It sounds **insane**, and it is. **But it's truly another 100% true and legitimate way to make money online that is also completely passive.**

2. Because the returns here are so high, you need only invest **a small amount of capital** to get the returns that will make you very happy indeed. For example, if you invest just \$100 (a hundred dollars), and the returns are 10x, it will turn into \$1,000. If the returns are 100x, it will turn into \$10,000.

3. The cryptos in this category are **different** from the cryptos in 9WOW1. They are found by doing some in-depth research and by looking at numerous factors, some of which we don't look at under 9WOW-1, before making a **calculated decision** to invest in them.

4. You **don't need to use software** in 9WOW2 to automatically buy and sell these cryptos. You buy them at the licensed exchanges of your choice. You will be taught how to do this if you don't already know.

5. You will want to know which cryptos fall into this category, when to buy them, and when to exit for maximum profits!

The 9th Wonder Of The World 3: The Dual Multiplier

1. In this strategy, you invest in selected cryptos **not chosen** in 9WOW1 and 9WOW2 above and earn from their **expected appreciation AND** high interest on them in the meantime!
2. This is yet another 100% legal and legitimate method of making money online passively. You get double the benefit (price appreciation + interest on them) – and it's once again 100% passive!
- 3. You will want to know which cryptos fall into this category, and the safest places you can go to get the best interest for your cryptos.**

=====

And that's it!

The 9th Wonder Of The World Passive Income System consisting of all 3 strategies **done together** will maximise your earning opportunities and potentially enable you to achieve your wealth goal **YEARS** earlier.

Not only that, don't have to break your back to do this at any time by putting in sweat, blood and tears in terms of your time and effort as they are all done **COMPLETELY PASSIVELY!**

Do this NOW:

And Here Are Some Amazing Results From My 9th Wonder Of The World Clients

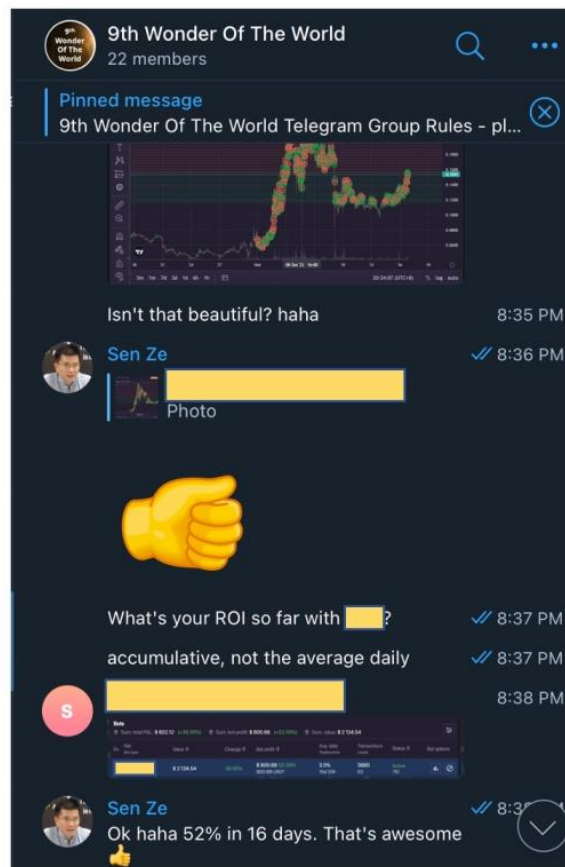

I used to run a Group in the Telegram app to teach my clients how to use the 9th Wonder Of The World Passive Income System, starting in 2022 which is when I released version 1.0.

The latest version as of the time of this writing is **v3.0** which contains even more profitable strategies that can get you beyond that 1% returns a day.

Note that all the lessons in the Telegram Group are now in a member area that my clients can login at their convenience, and for ease of reference.

The following are some results posted by some of my clients when I was running the Telegram Group. They were unsolicited, my clients just wanted to share their joy with my other clients.

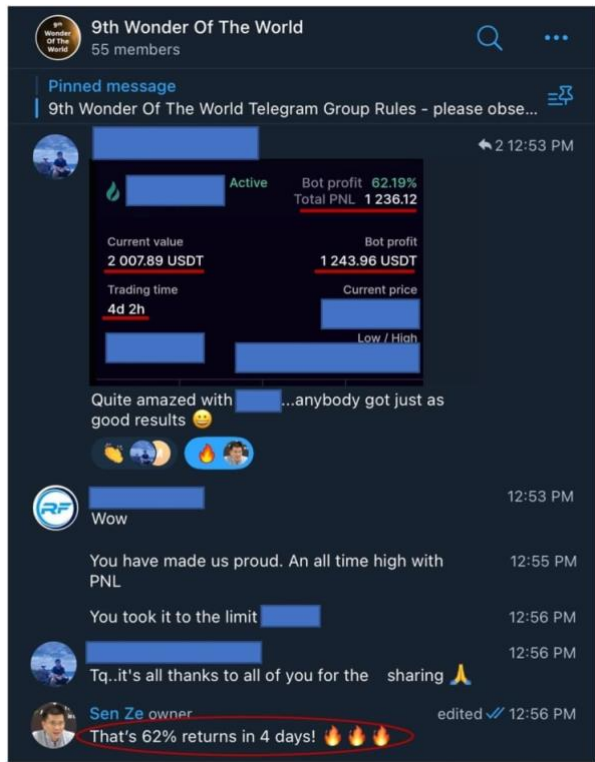

I have blanked out both the clients' names (to protect their privacy) and the cryptos' names as they are not going to be useful to anyone without the knowledge on how to do this.

As you can see, this client generated a profit of **52% on his capital on a single crypto, in just 16 days. This is a return of 3.25% a day!**

Another client used a variation of the 9th Wonder Of The World strategy to earn a **19.1% profit** on his capital in less than a **DAY**. He made a total of over **50% returns in just 2 days**, or an **average of 25% returns per day on his capital!**

Another client achieved a **62% return** on his capital on another crypto in just **4 days 2 hours** – or **about 15% in a single day!**

DISCLAIMER - PLEASE READ

Your results **WILL** obviously vary, even if you're auto-trading the same cryptos, because you will not start your bot at exactly the same time as another, and you may be using a different strategy. In fact, if you don't know what you're doing, you may lose your entire investment - **just like any other asset or business investment.**

So don't go into this blindly without knowing what the strategies are to maximise your profits and minimise your risks, and how to protect yourself from losses. Nothing is without risks, it's just a matter of degree. I am not a financial advisor, so please exercise due care with all types of investments and never invest money you cannot afford to lose.

And Here's Why You Should Start Making Money Online With The 9th Wonder Of The World Today

Most people don't like to buy and sell (or trade) stocks, commodities, cryptocurrencies, etc because they **don't understand** how to trade them properly, they think they have constantly look at price charts throughout the day and determine what actions to take, and they feel it's too risky.

But to me, trading these assets are no riskier than running an Internet business, or any business for that matter.

If you're willing to risk your time and effort and spend thousands of dollars in trying to create an Internet or Affiliate Marketing business with **no guarantee** you will ever make enough profit for you to quit your job...

...then you owe it to yourself to at least try out The 9th Wonder Of The World Passive Income System because it's **SO MUCH EASIER and SO MUCH QUICKER to see returns (which can happen within MINUTES) - and it's COMPLETELY PASSIVE!**

This is because I've **REMOVED** practically **ALL** the technical aspects so that you don't have to even look at them.

And because software does the work **FOR YOU**, the profits **WILL** be generated as software does not procrastinate, or have a headache, or fall sick, or will need to send the kids to school and back, and whatever else that humans can be sidetracked by.

I can help set up The 9th Wonder Of The World Passive Income System from scratch **FOR YOU** (takes 40 minutes over a single ZOOM session).

You can get started **immediately** after it's set up (if you wish).

Best of all, and as you have seen...

Everything is **FULLY AUTOMATED**.

You don't have to lift a finger to earn profits with this system!

Sounds good?
