How to Use Your Brag Book

There's a time and a place for humility and this Brag Book is NOT the place. It's simple really, we want you to record any and all compliments you get related to your professional life on these pages. Then again, if someone tells you, "Hey, your hair looks shiny and spectacular today!" feel free to jot that down too!

Did you get great feedback on your latest project? Write it down! Did a colleague refer to you as "a really fun person to work with?" Record it! Did you get a fortune cookie that says "You'd look great in a hat?" Technically, that counts--note it!

When you hit a rough patch or start doubting yourself, just flip through this book for an instant confidence boost. You've got mad skillz, and it's no wonder people can't stop praising you. Plus, the Brag Book may be your secret weapon when you ask for that well-deserved raise.

Don't be shy. Have fun. Gloat a little. Remember, no one's better at being you than you. That's worth celebrating!
