Welcome Friend,

I'm Kelly The Cleaning Girl,

an award winning professional house cleaner of over 20 years. Together with my team, we've cleaned more than 25,000 homes...that's a lot of Lysol!

I started my house cleaning business as a way to support my family through a flexible schedule because *the traditional 9-5 no longer fit our busy lifestyle and the pay was crap.*

Through the years, I won dozens of "women in business" awards, worked with hundreds of cleaning girls, cleaned thousands of homes, earned millions in sales and sold multiple divisions within my company. Looking back, my house cleaning business was a *lifeline that I never knew I needed and has provided a lifetime of opportunities* that I continue to cherish every day.

Now, *I teach women just like you how to create a profitable house cleaning company* with simple solutions, strategies and systems along the way.

Using my expertise, I developed this helpful *Checklist Collection* so that you can learn from my experience and easily start to create a house cleaning business that you'll learn to love.
