<https://www.andreerving.com/affiliate>

- All you have to do is **send visitors to our site**, and we'll convert them into customers.
- You will earn between 2% and 25% on all sales made on [andreerving.com](https://www.andreerving.com) before tax depending on the country you are in and the item that was purchased.
- This is a lifetime affiliation, so the contacts you send are marked in our database with your affiliate ID. Even if they don't buy anything for 6 months or a year later, you will still earn commissions on their purchases.

**Note:** Our affiliate program works on the **last cookie**. If another affiliate refers the same lead with their affiliate ID after you do, they'll get credit for the sale.

However, you will still get commissions for the subscriptions, products, or services that were bought using your affiliate link.

# How to use your affiliate link

To promote the andreerving.com affiliate program, you will add `?sa=YOURAFFILIATEID` at the end of any URL whenever you mention an andreerving.com page.

You will remove **YOURAFFILIATEID** above and replace it with the affiliate ID you will receive via email when you sign up. It will be a combination of letters, characters, and numbers.

(This can be the home page, a page from our blog, or any of our landing pages, sales pages, or payment pages. (Just as long as it contains: <https://www.andreerving.com/>)

Let's look at an example of how to use your affiliate link to promote the **andreerving.com home page**. (URL to promote: <https://www.andreerving.com/>)

Let's imagine that your affiliate ID is:

**sa00041537157dbe466c95a6395de4e031d503bea587**
