**Hey everyone, my name is Isfhan Rashid from
Marketing with Rashid.com**

**If you've ever wanted to make money online but

So stick around, because by the end, I'll give you something that makes the whole process so much easier.

Let's start with the basics.

Affiliate marketing is simply recommending other people's products, and when someone buys through your link, you earn a commission.

**Think about it, every time you share a product you like,
you're doing affiliate marketing without realising it.**

The difference here is that now, you can get paid for it.

You don't have to create the product.

**You don't have to handle shipping, customer service,
or tech stuff.**

All you have to do is share your link, and when people make a purchase, you get paid.

It's one of the easiest ways to start an online business with minimal risk.
