

TRANSFORMATION STATEMENT

A before/after scenario

BEFORE

AFTER

The Before After Scenario

This course helps bloggers go from feeling overwhelmed with a few scattered posts to having a clear content strategy, growing traffic, and their first affiliate sales.

This is the type of thinking you want to get across to the readers of your affiliate content.

The better you can help your reader understand and see the transformation the easier it will be for you to make a sale.

Before vs After

In the “Before” state the customer is discontent in some way related to blogging.

They might be in confused, overwhelmed, frightened or unhappy for any number of other reasons.

In the “After” state --- life is better. They are free of confusion, ready to tackle their new blogging adventure.

Most Affiliate Reviews that fail, particularly when entering a crowded market, do so because either...

- They fail to offer a desired “After” state (The offer is no good)
- They fail to easily explain the movement from “Before” to “After” (the marketing is no good)

So, let’s look at the before/after we will use in our transformations.
