

# Welcome Message from the founder

Dear Learners,

Warm greetings to you!

As an educator, I have always carried an earnest desire to create a digital learning platform where education is enriched with human values. Today, I feel proud to see that dream taking shape through **Credo Study** – a space where quality digital education meets purpose.

E-education is now one of the fastest-growing pillars of progress, especially in NCR and other emerging smart cities. Our mission is clear and inspiring: **“To educate students from rural, backward, and underserved areas and empower them through knowledge.”**

I truly believe that *“Excellence is never an accident; it is always the result of high intention, sincere effort, intelligent direction, and skilful execution.”* These words perfectly capture the spirit of technology-driven education we stand for.

I extend my heartfelt blessings to all aspirants, teachers, trainers, and education partners who walk this journey with us. May the Almighty continue to guide **Credo Study** in shaping lives for generations to come.

**With best wishes,**  
(Jagmohan Kushwaha / Founder & Educator)

**THANK  
YOU**
