

"How to Stop Blowing Your Deposit: A Trading System From Scratch in 2–3 Days"

Does this sound familiar?

- You trade — sometimes up, sometimes down, no consistency
- You don't understand why you blew your deposit
- You're afraid to lose money and keep going in circles
- You watched YouTube — but still have no clear system

Most beginners lose their first money not because the market is complicated. But because nobody explained the most important thing — how to manage capital and risk.

In 2–3 days you will get:

- A clear system for entering and exiting trades
 - Money management — how much to risk and when
 - Risk management — how to protect your deposit in any situation
 - Working strategies you can apply immediately
 - Personal guidance from a practising trader
-

What is inside the course:

- 1. Basics & Foundations** — The foundation without which nothing else works
 - 2. Money Management** — How much to put into one trade so you do not blow everything in a day
 - 3. Risk Management** — Your deposit protection system — the most important tool you have
 - 4. Strategies** — Specific, real entry points that I use myself
 - 5. Video Breakdowns** — Watch how it works in real time — no fluff
 - 6. Bonus** — My experience and mistakes that will save you money and time
-

Who this course is for:

- A beginner who wants to start the right way
 - Someone who already tried, blew their deposit, and wants to understand why
 - Someone who trades chaotically and wants a real system
-

 **Price:**

\$150 → **\$100 — launch price**

First 10 students get the special price. After that — \$150.

 **You get instant access to the course after payment.**

2-3 days and you have a system.
