Before You *Start...*

You do **NOT** need to create all 50 of these.

Please don't.

That's exactly how you end up with 37 half-finished Canva designs and absolutely nothing for sale.

Pick **ONE** idea.

Choose something you understand,
something your audience needs, or something
you can make without disappearing down a research
rabbit hole for three weeks.

Then make it.

Finish it.

Put it up for sale.

*Done beats sitting there
thinking about it.*

Here are 50 ideas to get you started...

Ideas are great... but action changes everything. ♥

NOW PICK ONE.

Seriously.

Don't bookmark this and tell yourself you'll come back to it. Choose one idea that suits your audience and take the first step today.

1

WHAT am I creating?

Choose your idea. Be specific (e.g. budget planner, social media templates, dog care tracker).

2

WHO is it for?

Think about your ideal customer. Be clear about their needs, interests and problems.

3

WHAT problem does it solve?

How will it make their life easier, better or more enjoyable?

4

WHAT does it need to include?

List the key pages, sections or features it must have to be useful.

5

WHERE am I going to sell it?

Choose your platform (e.g. your own website, Etsy, Gumroad, Payhip, Fourthwall).

Your first version does not need to be perfect. It needs to exist. ♥
