

How to import the ePub file you received into Apple Books or Amazon Kindle

Save the ePub file received by email in the “Files” app

- Now open the Files app and navigate to the ePub file you just saved
- Tap on the ePub file and select “Share”
- Various apps are now displayed
- Select the “Apple Books” app or the “Kindle” app
- The ePub file is then imported into the selected app

Note: If the “Apple Books” or “Kindle” apps are not visible in the share sheet, it may help to open them and repeat the import process.

Tested on an Iphone with ios 18ext
