HOW TO START A DIGITAL MARKETING BUSINESS &
CREATE A PASSIVE INCOME STREAM

HEY,

After working 20 years in the construction industry — long hours, and barely any time left for myself or my family — I knew I needed a different path. I've spent years feeling overworked and underappreciated, and that pushed me to start exploring digital marketing and digital products. I'm still early in this journey and haven't made money yet, but I believe in this industry because it offers something I've never had before: the possibility of freedom. This store is where I share the tools, resources, and knowledge I'm learning as I build my way out of the grind. I'm creating this in real time, and I hope it inspires you to start your own journey too...."

IN THIS GUIDE

You'll not only learn the basics of digital marketing, faceless digital marketing & affiliate marketing but you will also walk away with a thorough understanding of the EXACT beginner's course that taught me everything I needed to know about digital marketing, so you learn the EXACT way I did.

P.S. Tag me on your Instagram story @westxshukitt while you're working through this process! I'd love to see what you're up to!

What is **DIGITAL MARKETING?**

I'm still early in my digital marketing journey — I haven't made money yet — but I'm learning every day, and I genuinely believe in this path. I've seen what's possible, and I trust the process enough to keep showing up and sharing what I learn with you.

Digital marketing is simply using the internet and social platforms to share digital products or services with people who need them.

And the reason I think it's such a powerful option for beginners is because everyone has something to offer — a story, a skill, an experience, a lesson.

Digital products can be ebooks, templates, guides, checklists, presets, planners, podcasts, audiobooks, worksheets... the list is endless. You create something once, and it can be sold over and over again.

And if you think you don't have anything to offer, trust me — you do. Someone out there is looking for the knowledge you already have. It's just about learning how to package it and finding the right audience.

I'm still learning, still building, and still growing — but I believe in this industry, and I believe in what's possible for both of us.

Steps to getting STARTED IN DIGITAL MARKETING

STEP 1: CHOOSE YOUR NICHE

- A niche is the category of product(s) you will promote, which determines your target audience. Choose a niche you are passionate about. This will allow you to enjoy your work, feel comfortable promoting the product, and build trust with your audience.
- Profitable niche examples:
 - Health and wellness, wealth, relationships, self-improvement, beauty and fashion, travel, education, food and cooking, parenting, personal finance, pets, career development, etc.

STEP 2: PICK YOUR PRODUCTS

- Affiliate Marketing: Find other companies products to promote.
 - Google "[your niche] + best affiliate programs + [your country]"
 - Or use Clickbank, Digistore 24, JV Zoo, CJ Affiliate, etc
 - Apply to be an affiliate, wait for approval, get your link(s)
- Digital Marketing: Create your own products.
 - Do market research on what your target audience wants.
 - Use ChatGPT for product ideas, outlines, etc.
 - Use Canva to create PDFs & Teachable to create courses
- Done-For-You Digital Marketing:
 - Purchase a Done-for-You product within your niche. Yes! It's really that simple!

PRO TIP: Don't treat it as an "either-or" situation. Blend them together to diversify your income streams. For example, I focus on done-for-you digital marketing while dipping into affiliate marketing, promoting business tools that have helped me and can benefit my students. This comprehensive approach maximizes your potential for success!

Steps to getting STARTED IN DIGITAL MARKETING

STEP 3: DRIVE TRAFFIC TO YOUR LINKS

- This is the fun part! Now that you've found your niche and a product within your niche, it's time to create engaging content to promote it! Figure out the pain points people in your niche are experiencing and how your product will solve or alleviate that problem. Then, begin creating content that will draw in the audience you're targeting with a simple call to action.
- You can drive traffic to your links by creating content in the form of IG reels, static posts, ebooks, blogs, TikTok, Pinterest, etc.
- I also recommend creating a brand new Instagram page and posting 2-3 reels a day to really get your content out there!
 - You can also use my Kickstart strategy as a guide to get more views, followers, leads & sales
- Use a content bank to create aesthetic reels (I will show you my faves) this option is if you want to go the FACELESS route.

STEP 4: CONTINUE TO LEARN AND EVOLVE

- Continue to evolve and expand your offers (create your own products to help your audience)
- Keep learning every day
- Master your mindset - show up with a success mindset
- Show up every day with the mindset that you are creating success no matter what
- Connect with people in your DM's - find out about them and how you can help them

The

FACELESS METHOD

FACELESS DIGITAL MARKETING?

Faceless marketing is a strategic approach that is very on-trend right now. It's AMAZING if you are shy & introverted! You can use your creativity but remain **anonymous**.

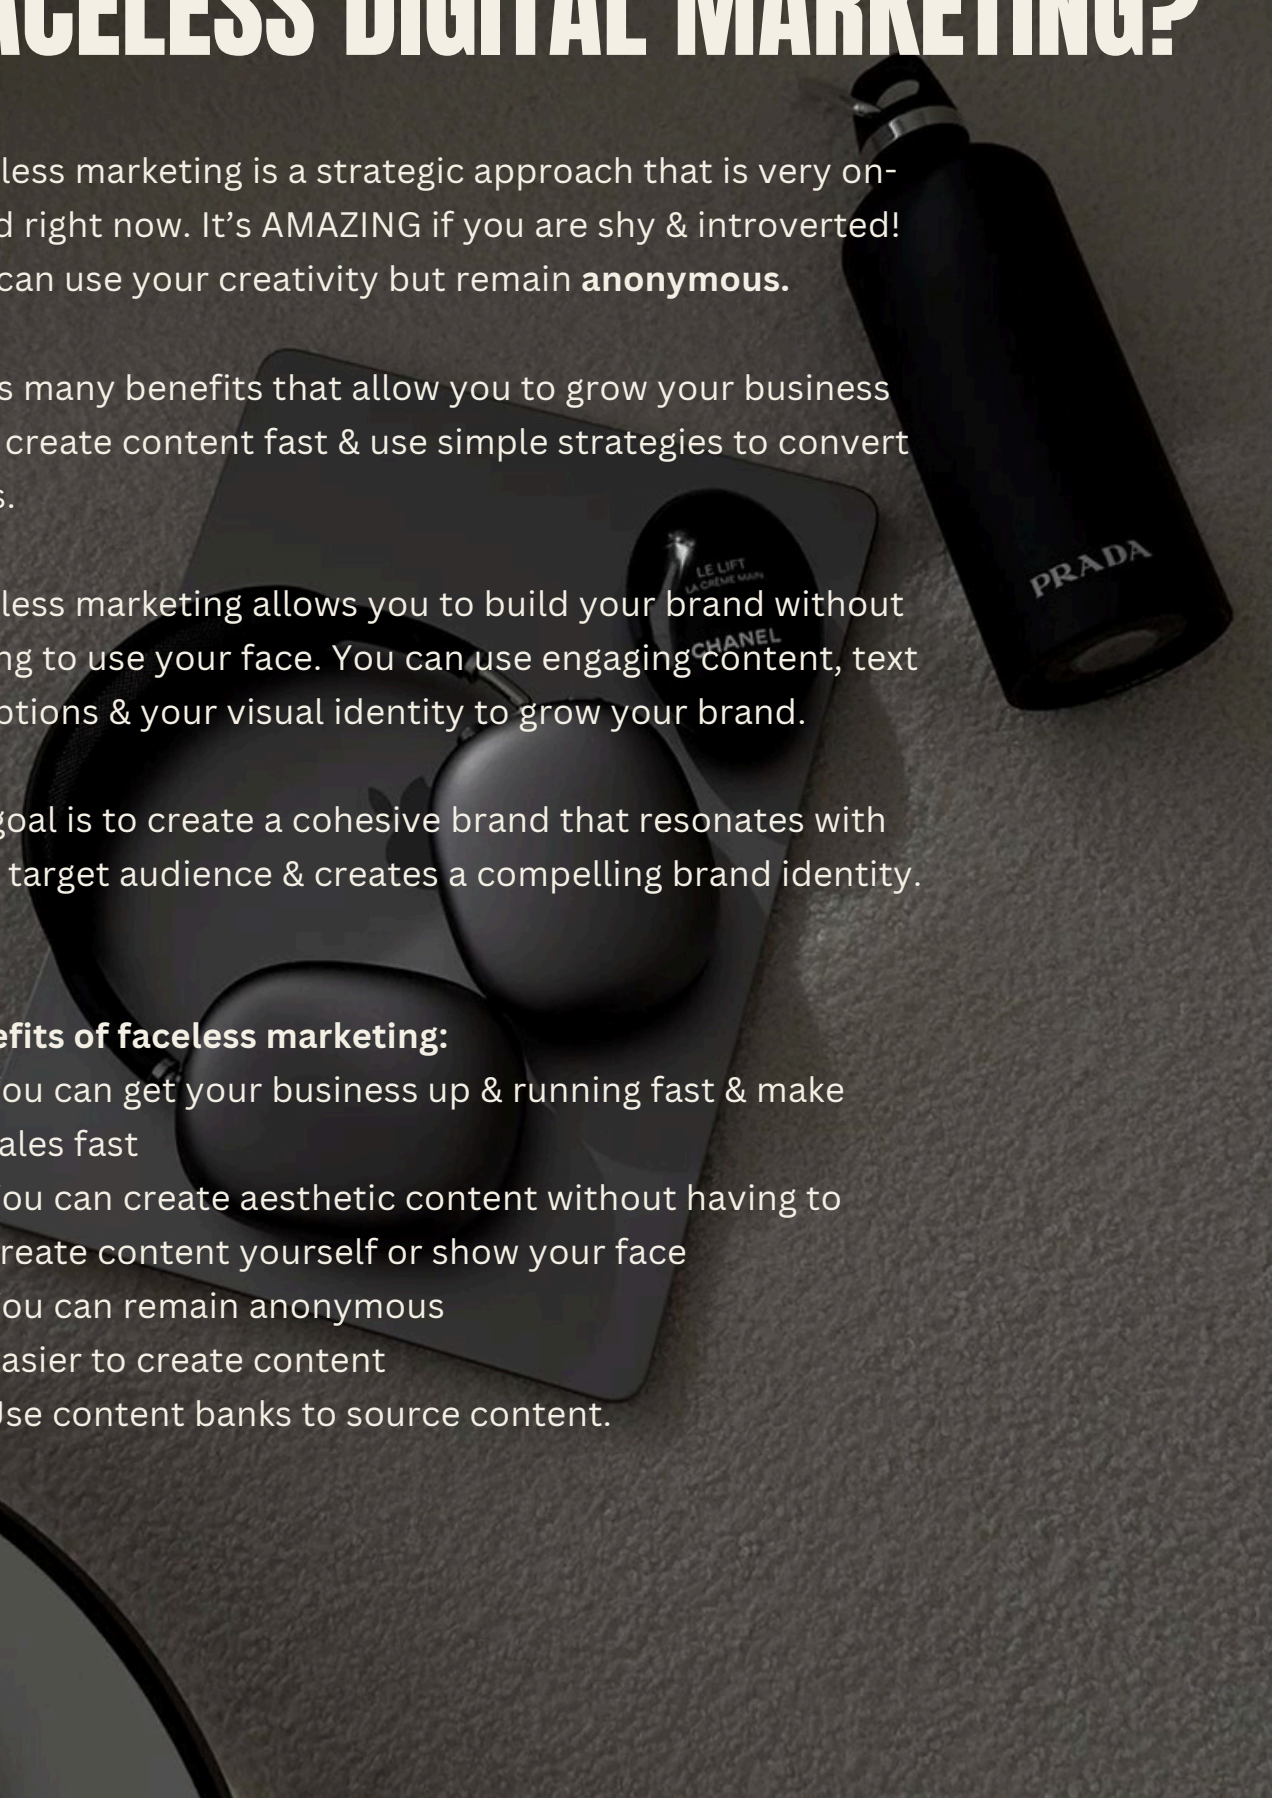

It has many benefits that allow you to grow your business fast, create content fast & use simple strategies to convert sales.

Faceless marketing allows you to build your brand without having to use your face. You can use engaging content, text & captions & your visual identity to grow your brand.

the goal is to create a cohesive brand that resonates with your target audience & creates a compelling brand identity.

Benefits of faceless marketing:

- You can get your business up & running fast & make sales fast
- You can create aesthetic content without having to create content yourself or show your face
- You can remain anonymous
- Easier to create content
- Use content banks to source content.

Faceless FAQ'S

- **Can I build a strong brand identity without showing my face?**

Yes! The key to building a strong brand identity lies in maintaining consistency throughout your visual elements (colors, fonts, type of content), messaging, and voice style.

- **How can I engage audiences without a personal influence?**

Encourage interaction through polls, quizzes, and discussions related to your industry. Leverage social media platforms to foster community engagement around your brand.

- **How can I foster trust when the brand lacks a face?**

Always add value! Share your knowledge/ expertise in your topic of choice. Highlighting customer testimonials, case studies, and reviews also helps build credibility.

- **Can I still do this if I don't know how to take aesthetic faceless content?**

Absolutely! That is one of the beauties of faceless marketing. Since no one knows who is behind the account, you can use videos curated by content banks! You don't need an aesthetic home or to film your own content to launch a successful faceless account.

- **Can I find success if I create a new faceless account?**

Yes! Instagram loves new accounts! So if you want to keep your personal account and start a new one for your faceless content I 100% recommend it! It might take some time to get some traction, but if you stay consistent, focus on adding value, and launch with a good strategy, you will see growth!
