

AI VIDEO AD STUDIO · OUR WORK 2026

Scroll-stopping video ads, **without the shoot.**

Street interviews, UGC-style creator ads and product CGI for e-commerce and DTC brands. Built with AI from your product photos and delivered in 48 hours, ready for Meta, TikTok and YouTube Shorts.

48 hrs

Typical delivery

12+

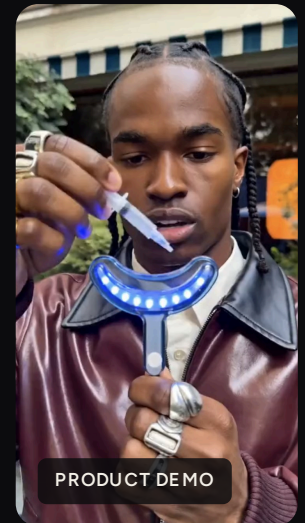

Ad styles

No shoot

No creators, no model
releases

Any ratio

9:16, 1:1, 16:9 and more

Three formats, built to be tested.

01

Street interviews

A stranger stopped on the street, an honest reaction, your product handed over on camera in one continuous take. It reads like content, not an ad, and the same face can carry a whole series.

Vox pop

"Can you tell it's AI?"

Taste tests

Product hand-over

02

UGC-style creator ads

Direct-to-camera reviews, unboxings and demos that match the look and pacing of real creator content, with a consistent face you can reuse across a whole series.

Before & after

How-to

Testimonial

03

Product CGI & claymation

Hero product renders, claymation reveals, ASMR macro and stop-motion. Stand-out visuals for launches, Amazon listings and retargeting.

ASMR macro

Stop-motion

SELECTED WORK

Stills from recent ads.

Every frame here is AI-generated: no actors, no studio, no product shipped. Scan to watch the full videos at kbvpublishing.com/work, or ask and we'll send a reel for your category.

From product photo to finished ad in 48 hours.

1

Send your product

A product link or a few photos, plus one line on who your customer is. That's all we need; nothing gets shipped.

2

Sign off the hook

We agree the hook, script and look with you first: 2–3 concepts, a short script and the character. Nothing goes into production until you've signed it off, and if none of the concepts work for you, you get a full refund.

3

We produce

Characters, voiceover, music, captions and edit, all done in-house. Each ad follows a hook, demo, call-to-action structure.

4

Review and post

Finished files ready to upload, with revision rounds included. Once it's live, we can build new hooks on the same character to A/B test against it.

Faster testing

New hooks in 48 hours, not weeks of creator back-and-forth.

One face, many ads

Reuse the same AI character across a whole campaign.

Nothing to ship

No samples posted, no studio, no model releases.

EVERY VIDEO INCLUDES

Length	12–30 seconds, cut for the first 2 seconds
Formats	Any format or ratio: 9:16, 1:1, 4:5, 16:9 and more
Script & hooks	Written for you, approved before production
Voice & sound	AI voiceover, music and sound design
Captions	Burned-in, styled for sound-off viewing
Characters	Consistent faces you can reuse in later ads
Usage	Standard licence; full commercial and whitelisting rights available

All people in our ads are AI-generated, so there are no model releases or creator fees. We'll advise on AI-content labels for Meta and TikTok, and we never present an AI character as a real customer.

PACKAGES

Pick a package, or ask for a custom quote.

STARTER

\$79 / 1 video

Try one format

- 1 video, 12–15 seconds
- 1 hook concept
- 1 revision round
- 3-day delivery

[Order Starter →](#)

MOST POPULAR

GROWTH

\$199 / 3 videos

Test three hooks against each other

Bulk orders & retainers

Discounts on bulk orders and on weekly or monthly retainers for brands that need fresh creative every week. Ask for a quote.

All styles on page 2, street interviews included, use these packages. Prices in USD. Not sure which to pick? Most brands start with Growth, so there are three hooks to A/B test. Started with one video? Once it's running, we'll build new hooks to test against it, and that's where Growth and Scale come in.

WHO YOU'LL WORK WITH

Ads built by someone who runs ads.

KBV Publishing is run by **Damian Stevens**. Before AI video, I spent 12 years in the British Army, the last three as an instructor, so deadlines and briefs get taken seriously.

I'm a **certified media buyer** (Meta, Google and YouTube) and run paid campaigns for my own brands and for clients. Every video is made to be tested in a real ad account, not just to look good in a portfolio.

You deal with me directly from brief to delivery.

That's me, or rather my AI avatar, made with HeyGen. Founder and spokesperson avatars are available on request.

Have a product in mind?

Send a link and I'll come back with a hook idea for it, free and with no obligation. Use code **FIRST15** for 15% off your first order.
