Understand Your Plan and Account Limits

Find your current account plan and check which features or limits apply. Savvy Funnels plans may differ from standard systeme.io plans.

Review your plan

1. Log in to Savvy Funnels and select your profile picture.
2. Choose Settings, then My plan if that option is available.
3. Review the plan shown and the limits displayed for your account.

Check before making changes

1. Look for limits relevant to what you want to do, such as contacts or feature allowances.
2. Do not rely on standard systeme.io pricing or plan names to work out what is included with Savvy Funnels.
3. If a feature or limit is unclear, email megan@savvyfunnels.co.uk before upgrading or changing anything.

If you cannot see My plan

1. Some account roles cannot access owner-only settings.
2. Ask the account owner to check, or contact Savvy Funnels support for guidance.

Before You Finish

[ ] You know which plan your account uses.

[ ] You have checked the relevant limits before building.

[ ] You know where to ask about Savvy Funnels-specific allowances.
