

VITA ANCHOR

I HAVE A SKILL

Turn what you already know into something useful — and potentially income-generating.

You already have a starting point. It might be a practical skill, a creative ability, work experience, a hobby, knowledge you have gained, or something people regularly ask you to help them with.

HOW VITA ANCHOR CAN HELP

- Identify the skills, strengths and experience you can build on.
- Explore practical ways to apply your skill in real situations.
- Develop or improve a product or service around your ability.
- Work through basic costing, pricing and customer considerations.
- Build confidence through practical guidance, feedback and action.
- Identify the next realistic step instead of trying to do everything at once.

EXAMPLES OF SKILLS WE CAN EXPLORE

- Sublimation printing and personalised products
- Crafting and handmade products
- Basic woodworking and practical making
- Design and branding
- Product creation and presentation
- Workplace health and safety knowledge
- Event health and safety
- Business, administration and digital skills
- Other practical skills you already possess

YOUR JOURNEY

Discover your skill → Explore the opportunity → Learn what is missing → Practise → Create → Test → Improve → Grow.

WHAT YOU CAN EXPECT

This is practical mentoring and coaching. We do not promise that every skill will become a business or generate a particular income. Instead, we help you assess the opportunity realistically and turn knowledge into practical action.

READY? LET'S LOOK AT WHAT YOUR SKILL CAN BECOME.

Vita Anchor Development Solutions • Developing People • Strengthening Businesses • Creating Possibilities
