# Hello Friend

Hey there friend, I am so glad you are here. Here is a little bit about me. I am a wife and mom to 3 beautiful girls. Summer of 2023, I was pregnant with our 3rd baby. While pregnant with my rainbow baby, I was still working out of the home. We were desperate to find a way for me to be home before I had our baby. My husband and I had considered all the possibilities. I really tried every possible solution I could think of - working weekends, 4 ten-hour days... all the things. But nothing seemed like a good fit because those options would seriously impact our family time and social life. It was then that we realized the power of multiple streams of income - this is actually a biblical concept (Ecclesiastes 11:2)! That fall, I was able to be home with my kids and never had to be away from my baby once she was born (on my birthday) in January 2024. Now we have expanded our income streams even more, and I have grown a love of sharing with others. We used to be a struggling family, just like many, between inflation and debt and just trying to keep up. It was hard. Now our situation has completely changed, and we are so thankful for those who have taught us along the way. I hope you find this guide helpful!

# GET STARTED RIGHT AWAY

If you want to skip all the reading and get started now- I made this slide just for you!

90% of all of my gigs are in this one program. I do have a few seperate ones but this one program has over 90 modules with several several online remote income gigs.

The best part, it is only \$25 to get started!!

This is also THE MOST affordable opportunity I have. It comes with so many options.

The program is called Pay It Forward

They genuinely want to focus on paying it forward and helping people. They have live calls every day for different streams of income with a support team to help you every step of the way with each one.

So if thats you- click below to watch a little video about it and get started :)

GET STARTED  
HERE

INCOME STREAM #1

# HAND WRITTEN LETTERS

This is a gig that does not require posting to social media or telling ANYONE. This method has been around for decades. We are writing these letters to online gaming companies and casinos. This is something that these big BILLION-dollar corporations have to offer to stay open and stay compliant in this industry. They also like to offer this because they get a tax break.

Each letter is valued at \$1-\$5, and it takes 4-6 minutes to write one letter and one envelope.

You are writing 2 sentences. You are just asking to participate in their program and requesting these free credits. Then, you are stating that you understand and will comply with their terms.

This course will proof check your work for accuracy to ensure that your letters will not get rejected. Once they have received your letters and have added them to your account, our program teaches you how to convert all those online credits to your bank account. This course that I took held my hand through the entire process; they have an amazing community and have weekly calls, trainings and Q and A's where they answer your questions and keep you updated.

# UGC

## USER-GENERATED CONTENT

UGC (User-Generated Content) is content created by everyday people for brands to use in their marketing. Think product demos, testimonials, unboxings, tutorials, lifestyle videos, voiceovers, or simply showing how a product fits into your everyday life.

Unlike traditional influencing, you don't need a huge social media following to get started. Brands are hiring you for your ability to create authentic, relatable content — not necessarily for access to your audience.

A brand sends you a product or gives you access to its service and provides guidelines for the content they need. You film and edit the video, submit the finished content, and get paid for the content you created. The brand can then use that video on its own social media, website, or paid advertisements.

UGC projects can range from simple, one-time videos to larger packages or ongoing monthly partnerships. Depending on the project and your experience, creators can earn hundreds of dollars for a single project, with opportunities to earn more through bundles, additional usage rights, or repeat work.

The best part? You don't have to be a professional filmmaker or established influencer. A phone, good lighting, creativity, and the ability to make natural, engaging content can be enough to get started.

GET  
STARTED  
HERE

# TECH UGC

## INCOME STREAM #3

UGC Tech takes the same authentic, relatable style of traditional UGC and applies it specifically to apps, software, digital products, and technology companies. But there's one major difference: instead of simply creating a video and handing it over to the brand, many UGC Tech opportunities involve creating and managing content on a dedicated social media account for the brand.

You may be given access to an app or software platform, create a separate TikTok or Instagram account, and regularly produce short-form videos designed to attract attention, demonstrate the product, entertain viewers, or show how the technology solves an everyday problem. Because these arrangements often involve consistent content over a longer period of time, UGC Tech can look more like an ongoing creator partnership than a one-time UGC job.

Creators may be paid a set monthly amount for an agreed-upon number of videos or posts, sometimes with additional performance-based incentives. And because you're promoting a digital product, there's usually no waiting for products to arrive, storing inventory, or shipping anything back. Your phone and the software itself become the tools you use to create.

Traditional UGC: Create the content → deliver it to the brand → get paid.

UGC Tech: Create content consistently → post on a dedicated account → build awareness for an app/software → earn through an ongoing partnership.

INCOME STREAM #4

# MYSTERY SHOPPING

Have you heard of this before? I was pretty new to it. But it is honestly one of my fav secret side hustles. No, it doesn't make me millions, but it's pretty cool getting free things while also getting paid for getting things I would have probably gotten anyway. The other day my husband and I had out date night paid for by a shop.

I found shops through this program that havr been vetted reliably, companies that actually pay. Basically, we follow the rules that they ask of us. I check to see if the workers are working professionally; if they are respectful and polite etc. They will tell you what photos you need and proof of your time there via purchasing something and uploading the receipt.

After you visit the shop, they have a questionnaire you fill out and upload any photos. Its a pretty fun and simple thing we enjoy doing and getting some free things and also get paid.

HERE

INCOME STREAM #5

# HIGH TICKET AFFILIATE MARKETING

I have partnered with a health and wellness company that provides amazing health benefits while also creating insane financial benefits.

This is the side gig that allowed me to earn \$5k in 48 hours, my first month into this business.

The product is medical grade and has the most prestigious award and certification. This truly has felt like the missing piece to our side gigs. With all the effort you are putting in, with this gig, you really get paid well.

This 50-year-old company has a patented compensation plan that I truly believe is superior to all comp plans. They give over half of the affiliates sales to their distributors; I don't know what company will give 51% of their sales to those who affiliate for them- they are so generous! Part of their compensation plan involves getting \$5k every single month for life!

When I found this gig, I didn't have the time or the money to add another stream of income, but I knew our family needed this product and also this business. My teammates are having \$20k+ months! Our leader is traveling the world to Greece, homeschooling her kids; what a dream!! You owe it to yourself to check this one out!

HERE

# Digital Marketing

INCOME STREAM #6

If you have been in the online space for any amount of time in the last couple years you have probably seen people talk about digital marketing and how much money they have made.

The super cool thing I love about this gig, is that once you create something, you OWN it. It is yours to sell and no one can take that from you.

I was on a call the other day where someone mentioned, it is actually risky NOT to own your own business. Now, obviously, I do have a lot of streams of income, but I had never heard it phrased that way. If you don't own something, then someone else is in control of you and your hours and your time.

The things you can create are endless. Think of a passion you have. Something you could talk about for 30-60 minutes straight no problem. Now, think how you can monetize and help others in that area.

Something that I am passionate about is potty training. I had my baby peeing and pooping on the potty for the first time at 5 weeks old. I think it would be cool to create a guide to help parents with this. Do you see the vision? Do you see all the fun things you can create?

Some other options are: planners, baby shower bingo cards, recipe cards, happy birthday cards, work out guides, gratitude journal- You can pick anything that you are passionate about!

And the best part is, this is all digital, so you don't have to ship or mail anything.

The list can go on and on. Do you see how you can find something you are passionate about and monetize it!

Learn how to do all of these and even start with guides that are premade for you to start selling on day one!

## GET STARTED HERE

INCOME STREAM #7

# Amazon Review Program

This does not require creating any products of your own, OR purchasing any other products.

This involves doing video recording of products you have laying around your home. If they are sold on Amazon's site, you can do a video review of them (even if it was purchased from a different retailer).

And you do not have to show your face in these videos. Amazon just wants to hear your HONEST opinion of these products.

You then will upload these videos to Amazon...but in a very particular way that we can show you, once you are in the program. This is not an ordinary review. And only those in the program are able to make reviews like this.

After they are uploaded, Amazon will place them on that products page, and whenever someone watches your video and purchases that product (or one that's similar), you will get a commission.

Once you have gotten your amazon store front up and going, there is a special OINK extension to add on the chrome browser, that will run reports for you and see what videos may be flagged or could be making you more commissions. This step will grow your amazon income!!

Here is a 10% code to [GET STARTED WITH OINK](#)

Once you purchase it. Get on Chrome on your desktop, go to the Chrome web store and download Oink Extension. Get in the Facebook group for support and follow their YouTube video.

## GET STARTED HERE

# Income with Amazon

---

Since we are already talking about Amazon, let's chat about a few different ways you can make money through Amazon.

We already discussed how you can do review videos and make commissions when people watch your videos and make a purchase.

You can also send people your affiliate link and make commissions when you purchase through Amazon. This requires more work and effort as you have to send the links and drive traffic to those products. Being an Amazon influencer does not require this- Amazon sends people to your videos.

To become an Amazon affiliate, [CLICK HERE](#), or log into Amazon and scroll all the way to the bottom, and click on Amazon Associates or affiliate.

Another way to make money on Amazon is by creating a product. Though there are a lot of steps involved in this method, there is a lot of money to be paid by listing and selling a product on Amazon. This can be a digital product through Amazon or working with a manufacture to create a physical product.

If you are looking to make a digital product and sell on Amazon, something like KDP, you can also start learning about that [HERE](#). We have had several people in our community make childrens books and coloring books sold on Amazon.

INCOME STREAM #8

# LEGAL SHIELD

This 54 year old company has been blowing me away.  
Its a service that I am thankful for that comes with an amazing compensation plan.

LegalShield is a membership-based legal service that gives individuals, families, and business owners access to experienced attorneys for a predictable monthly fee — essentially giving you a law firm in your corner before you actually need one.

Members can get help with things like legal questions, contracts and document reviews, letters or phone calls made on their behalf, business matters, and more depending on their plan. For entrepreneurs, creators, and business owners, having affordable access to legal guidance can be especially valuable when you're dealing with contracts, clients, business agreements, your brand, and the many legal questions that come with making money online.

But it can also become an income stream.

LegalShield allows Independent Associates to earn commissions by helping other people and businesses get access to LegalShield and IDShield memberships. Associates can earn commissions on memberships they personally sell, and they may also earn ongoing renewal commissions as those memberships remain active. There are additional team commissions and performance incentives available within the compensation plan as well.

Watch [THIS](#) video to learn more!

GET STARTED HERE

## INCOME STREAM #9

# Affiliate Marketing

---

This method requires getting links from various stores, items or products. This is typically from something you already have or use and love.

You then share these links on your social media platform or with friends and family.

If they also find that service or product intriguing and decide to purchase, you will get a commission from that company that you partner with.

This can be fun to talk about items you already have that you love.

I believe everyone should be doing some sort of affiliate marketing. Whether you realize it or not, you are likely already doing free advertising for many of the things you love anyway. You might as well see if that company has an affiliate program and reach out to see if you can partner with them.

My husband's dentist even has a reward/affiliate program. Everything nowadays has something like this - so ask around and start creating a list of links of products and services you already love.

# Affiliate Partnerships

---

## KANGEN WATER.

This water has blown me away. I get it - that sounds so cliché.

But I'll just leave you with this [video](#) that talks about some of the testimonials people have had with his medical grade ionized water machine. And if you like research here is a list of articles and [STUDIES](#) done on this water.

Not only is the power of hydrogen water amazing, but this is also high-ticket affiliate marketing- which is an amazing added bonus to get commissions while sharing about the things you already love.

With high ticket affiliate marketing, you are able to make 4-figures for one sale!

[GET STARTED HERE](#)

---

## YOUNG LIVING

I have partnered with this company for 10 years now but have just recently started taking this business seriously. I absolutely love that this company has EVERYTHING. And when I say everything...I mean EVERYTHING!

Shampoo, deodorant, lotion, diaper rash cream, sun screen, bug spray, household cleaner, laundry soap, dish washer powder.. the list goes on and on.

And the best part is that everything on this site is low-tox. This has been a one stop shop for our family for years. I don't have to leave my house, the package arrives right to my front door and calms time for me and my family.

[GET STARTED HERE](#)

---

# Affiliate Partnerships

---

## JUST VIV- MONTHLY BILL REDUCTION

This program actually does not MAKE you money. But it will help you save money. This is entirely free to start. You will sign up and up load your bills to this site (cable, phone, internet, etc.) and they will see if they can get you lower monthly prices. Every little bit helps, right?! If they can save you money, then you pay 50% of the savings. If they save you \$50 a month on your internet bill, you will pay them \$25 a month, so you are still saving \$25- better than before!

[GRAB IT HERE](#)

---

## FETCH

Turn basically anything you do into gift cards with Fetch. Earn at stores, restaurants and shopping online. Even playing free games. This is super simple and easy to just scan receipts you already have, whether its a physical receipt, or online, it can be scanned.

Download the Fetch app with my link or use code  
XJVQ5P to get a bonus when you submit your first receipt

[GET STARTED HERE](#)

---

## CHIME

Chime is a digital online bank that can easily be linked to your bank. This has been a huge help for all my letter writers to link their bank accounts and get paid for writing letters. Again they also have an affiliate side, so you can share with others and get rewarded. Join below and get \$100 to start.

[GET STARTED HERE](#)

---

# Affiliate Partnerships

---

## LETTUCE GROW

Being that we are in the mid-west- we can't grow plants or garden outside year around. This garden tower allows us to grow lettuce and other spices and veggies inside whenever we want. Click the link to get \$125 off your Farmstand.

[GET STARTED HERE](#)

---

## SYSTEME IO

This free platform offers a place for you to create a website entirely for FREE. If you are overwhelmed with where to start, I highly recommend getting started with Pay It Forward (linked on page 4). But you can click the link below to set up your account.

[GRAB IT HERE](#)

---

## MANYCHAT

This tool is helpful to automate your comments and DMs. I love to connect with you all but this tool helps to speed up the process and get my info out faster, without anyone waiting on me. This is free to start.

[GRAB IT HERE](#)

---

INCOME STREAM #10

# TIK TOK SHOP

Much like Amazon, TikTok Shop is a gig where you can review products and get paid when people purchase those products. However, this one actually pays a higher percentage than Amazon. TT Shop also has the possibility of partnering with brands that send free products in exchange for your reviews. For any sales made from customers who watched your content, you'll be paid a commission.

Why pay for a course? I wanted something that would collapse time for me and have all the information in one place. Like many of these courses, they save me so much time, rather than spinning my wheels and trying to figure it out on my own. This is such a fun gig, getting free products and making videos about them. Plus you will get access to several other gigs when you join this learning center.

[GET STARTED HERE](#)

INCOME STREAM #11

# FACEBOOK REELS

This stream of income, honestly just fell into my lap. And for most side hustles, that's not possible. However, it does take a lot of work. So let me explain a bit.

I post content to my Instagram page that is linked to my Facebook biz page. This takes consistency and a lot of it. Here is the thing, I was going to make my content and reels (about income streams) anyway. So that fact that Facebook pays me on it, is just an added bonus.

And before you think you have to be some crazy influencer to be able to do this- think again. I started a brand-new IG page in August 2023. I didn't really take it seriously until Feb 2024.

And from then I have been consistent about posting and sharing. In Feb 2024 I had 200 followers. Now I have over 13k followers on IG. I didn't start my FB biz page until Feb 2024 and now have over 41k followers.

Just check out this [IG account](#) where this account has over 800k followers and mostly only shares reels of bread slices falling over. YES- sliced bread falling over -check it out [HERE](#). My point is, that you can share anything, consistently, over and over and over. Once you start getting so many views and followers and engagement, Facebook or Instagram may start paying you for your content and run ads for you (you don't pay for these- you get paid)

[GET STARTED HERE](#)

INCOME STREAM #12

# ROOM RENTAL

I am not even saying that you need to go buy Real Estate (though if you have the chance, it's not a bad idea). And I fully understand that this one does not work for everyone. BUT if you have a guest room sitting empty, maybe this is your chance to monetize it!

If you have an extra room that is not in use, you can rent it out to travel professionals. This can work well, as these people need a place usually for a short amount of time (13 weeks). They are working professionals who are very respectful and polite. This is a great passive income stream if you are ok with sharing some space of your home for some pretty easy money. There is a platform called Furnished Finders to list rooms and locate trustworthy, background-checked, traveling healthcare workers.

[GET STARTED HERE](#)

# Childcare

## INCOME STREAM #13

---

If you are a working mom or a stay-at-home mom, maybe you have already thought of this one- maybe an obvious one. But for some who are thinking about being home with their kids, but the financial aspects aren't lining up, and your daycare bill is insane, this would be a wonderful way to ease that transition.

When you think of the cost that you would need to PAY for childcare for 1, 2, or even 3 kids in daycare (assuming you have littles), plus what you would make while watching a few other kids- this might just be enough to cover the extra expenses.

This was one of the very first things I did to be home with my kids. Another family friend was suddenly out of childcare and was looking for help. It was a such a blessing in that season for them as well as for me.

If you don't know where to start, you could start by looking at some of your community or local Facebook groups that post about childcare needs- maybe you could be a drop in/back up for some families.

You could also start looking at care.com and see the needs of other families in your area and see if they fit with your family dynamic.
